**Dear Parents, Guardians and Students,
Greetings of the day!!!**

I hope all of you are keeping well. I also believe you are managing the current trying times well. I feel elated to share a few thoughts with you in the first edition of our **E-Newsletter (MEMORABILIA)** for the session 2020-21.

**From

DIRECTOR**

To begin with, as you know, information about the COVID-19 status changes daily which impacts our lives greatly. There is an old adage – ‘**Every coin has two sides**’. For all its disadvantages, “**LOCKDOWN**” is a double-edged sword. There is no gain saying that ‘our life’ has been stranded but how we can ignore the other side of coin. I term it as ‘**a blessing in disguise**’. People realised it but rarely is any one talking about it. I know it sounds bizarrely but it is a hard fact.

We all are making a hue and cry over **CORONA VIRUS/ COVID 19**, but how come no one has noticed the whooping atmospheric change and incessant ecological and environmental modifications. Nature is balancing itself. The Planet Earth is getting repaired and healed – cleaner open sky, purer air, clearer rivers, lesser pollution, chirping of birds and surrounded serenity. All must agree to the fact that nature is at its youth (best).

In the hustle and bustle of life, human beings have lost their connection with themselves, family, nature and life. We were in a mad race to overtake each other to accumulate every materialistic possession at the cost of everything. We hardly had any time to reflect on ourselves and what is happening in our children’s life. Now, due to the LOCKDOWN, relationships have become more stronger and we are becoming more familiar with ourselves and our loving ones. People have started practising effective healthy and hygienic habits, getting involved into various daily chores, spending more time together with their family. They have also acquired various social, moral, spiritual and ethical values during this span of social isolation. There are revolutionary changes in our life style which may be temporarily due to social distancing.

Ubiquitous Almighty God has His own scheme to operate the life and so we should happily surrender and accept the decisions. In the **Bhagvad Gita**, **Deity Krishana ji** remarked, "I am the Supreme Power, everything has been originated from me, I am the creator of everything, every creature is part of me and I am in every creature." Therefore, we all are the children of **GOD**. Then, how is it possible that parents will harm their offspring? Even in their wildest dreams, they can never think adversely for their children. Hence, whatever happens, it happens for good.

In a nutshell, Nature has replenished and we have reinvented the art of living – humans have rejuvenated, people of every age group have upskilled themselves, values and ethos like tranquility, compassion, and togetherness have been acquired. No doubt, this is the biggest ever economic turmoil and financial crunch after 1930 world depression. But who is to be blamed for it? – ultimately human being; some or other way our insatiable greed has brought us to the brink of annihilation. There are infinite lessons to learn. **Almighty God has once again proved that man is not mightier than Him.**

The fear of people when our country's corona count was 100 is not being seen now even though it is over 2,75,000. The answer lies in the psychological view of a man. There is a philosophy called the "**Kupler Rose Model**". It states that when a human goes through a tragedy, natural disaster, or accident, he passes through five stages. They are:

- 1. DENIAL:** Refusal to believe such a thing never happened. For example, we all denied that Corona will not come to us. Even it came, repeated denial that it will not spread to our place due to hot climatic conditions.
- 2. ANGER:** Getting angry. For example, 'anger over the loss of income and the loss of normal life due to lockdown.'
- 3. BARGAIN:** Inwardly lamenting that the Corona Virus may not have come and there should not have been a lockdown at all.
- 4. DEPRESSION:** It happened like this and goes in to mental pressure and depression.
- 5. ACCEPTANCE:** This is the last stage and the other way around is to accept it. For example, 'get used to live with Corona!'

These five levels are not just limited to Corona alone but apply to all the problems in human life.

What does a wise person do? – Going straight from the first level to the fifth one. He will set to make the next steps to progress in life. He who is trapped without reaching the fifth stage becomes mentally ill.

Everybody agrees that the forced isolation and untimely closure is teaching us things we will remember a lifetime. Like a bolt from the blue, the nationwide lockdown has made everything come to a sudden halt.

The academic world is the worst-hit. The forced closure of the educational institutions has badly affected the entire education system. However, **DPS Gandhidham** has been so optimistic that it has taken the advantage of the situation, using the 'technology'. With the initiative "**HOME IS THE NEW SCHOOL**", the school has ensured the academic welfare of its most precious partners – students, with online classes through **WhatsApp/ Google Classrooms/ Google Meet/ Zoom**.

Besides digital inclusion in teaching learning process, the school has held several different assessments and activities as listed below.

1. DELHI PUBLIC SCHOOL – TALENT HUNT OLYMPIADS (DTHO)-2020
2. A QUESTION A DAY (AQAD)
3. WORLD BOOK AND COPYRIGHT DAY CELEBRATION-2020
4. ONLINE COVID ART COMPETITION-2020
5. EARTH DAY COMPETITION-2020
6. ONLINE INSTRUMENTAL MUSIC COMPETITION-2020
7. ONLINE VOCAL MUSIC COMPETITION-2020
8. ONLINE INTRA CLASS RISING SOLO DANCE COMPETITION-2020

Honestly confessing, the parents' role in the effective execution of all this is immensely inseparable. They have been so very instrumental in keeping the children engaged and feeling upbeat all along. It is not an exaggeration that they have become a NEW teacher working at home. I would like to thank all the parents for being so understanding and cooperative in balancing the learning growth of the children. I also take the opportunity to thank and congratulate all the staff especially the teachers who are burning the midnight oil to give their best to the students. At this juncture, I would like to make it a point that only with coordinated effort and accountability from everyone can make the e-learning a true and lasting success for students.

My dear students, being off of school for months must have seemed quite a new experience to you. You might have probably started picturing a fun time like summer break, not the reality of being trapped at home and not seeing your friends. However, DPS Gandhidham, keeping in mind your academic welfare and all-round development, I would like to assure you that the teachers will all course correct and meet you when they are back in the classroom. They are experts at this! They are also getting ready to meet your emotional, psychological and post-pandemic needs. In the meantime, let us not let corona virus attack the learning!

Before going to conclude, let me include one thing. Every cloud has a silver lining. We will triumph over this CORONA crisis shortly. Let us not give up!

STAY HOME; STAY SAFE; KEEP LEARNING!

“Once you replace negative thoughts with positive ones, you'll start having positive results.”

‘चिंतन करो ,चिंता नहीं ,क्योंकि अपने व्यक्तित्व और भविष्य के निर्माता हम स्वयं है’

अप्रत्याशित काल(कोरोना -19) के आ जाने से जो प्रलह काल आ गया है ,उसने समस्त धरा को प्रभावित किया है |अपनी विषदंतिका का प्रहार कर त्राहि की चित्तकार उत्पन्न की है ,परंतु क्या ईश्वर की बनाई सर्वश्रेष्ठ कृति भय से हतोत्साहित होकर धराशाही हो जानी चाहिए ,नहीं किंचित कभी नहींक्योंकि राष्ट्रकवि रामधारी सिंह दिनकर जी का कहना है कि-

“चाँदनी पुष्प-छाया में पल,
नर भले बने सुमदुर कोमल,
पर अमृत-क्लेश का पिये बिना,
आताप अंधड़ में जिये बिना,
वह पुरुष नहीं कहला सकता,
विघ्नों को नहीं हिला सकता “

वैश्विक कोरोना-19 के कारण जो उत्पात मचा हुआ है उसमें सभी प्रभावित हुये हैं ,लेकिन सबसे ज्यादा अगर अंधकार की स्थिति में कोई गया है तो वो भावी पीढ़ी है | जिसको अपने भविष्य पर तलवार लटकती हुई दिखाई दे रही है | सभी कुछ अनिश्चित प्रतीत हो रहा है, परंतु मेरे प्रिय विध्यार्थीगण यदि हम इस विनाश लीला का विपरीत रूप देखने का प्रयास करे तो यही वो समय है , जब हम अपने भीतर झांक सकते है |

इस दौरान हमने सबसे जरूरी अपनी आत्मिक सुरक्षा,मानसिक सुरक्षा के साथ-साथ शारीरिक सुरक्षा को भी समझा है | इस काल के दौरान हमने व्यक्तिगत जीवन के साथ ,विध्यालय ,पुस्तकों,साथियों ,गतिविधियों के महत्व को भी समझा है | हमे ध्यान रखना चाहिए की इस कोरोना काल में विध्यार्थियों को शब्दों की दुनिया से जोड़कर अगर किसी ने रखा है तो वह एक शिक्षक है |समुद्र सा अथाह ,नभ सा विस्तृत ,धरा की तरह धैर्यवान ,अग्नि जैसा ओजस्वी ,ललाट पर ध्रुव की तरह चमकता हुआ ,जो भाग्य की रेखाओं का निर्माता होता है | शब्दों का प्रकांड पंडित, जिसने अपने अधीनस्थ शिक्षा निधि को उन्मुक्त होकर अपने शिष्यों में बांटा है |वही विध्यार्थियों ने नव कोपल की भांति ज्ञान को ग्रहण किया है और फिर ओस की बूंदों की तरह चमकदार और पारदर्शी हुये है |जहां इस काल में विधालय के द्वार बंद है फिर भी वहाँ शिक्षा का आदान- प्रदान हो रहा है|ऐसी स्थिति में मात्र एक ही भाव उत्पन्न होता है ,वह है “सहयोग” ,जो दोनों ओर से किया गया है |

आदरणीय निदेशक महोदय डॉक्टर सुबोध थपलियाल जी के सानिध्य व मार्गदर्शन में विध्यालय का वातावरण ऑन लाइन बना रहा | पठन-पाठन के दौरान अनेक गतिविधियों के माध्यम से सभी के भीतर उत्साह की ऊर्जा बनी रही और लयबद्ध तरीके से विध्यालय का नया सत्र सुगमता से संचालित हो सका |मात्र पाठ्य सामग्री ही नहीं भेजी गई बल्कि निराश हो रहे विध्यार्थियों को व्यक्तिगत रूप से प्रोत्साहित भी किया गया |अनेक गतिविधियां संचालित की गई | जिसमे विध्यार्थियों ने ही नहीं बल्कि उनके परिवार के सदस्यों ने भी बढ- चढकर हिस्सा लिया |

सकारात्मकता का विचार ही अनिश्चय काल के अंधकार से निकाल सकता है | भविष्य के गर्त में क्या है यह किसी को ज्ञात नहीं है, परंतु अपने कर्म को करने की दृढ इच्छा ही हमें इस काल से निकाल सकती है |यह विनाश का समय है ऐसा सोचकर निराशा के भंवर में नहीं फंसना चाहिए | बल्कि यह विचार करना चाहिए की इस काल के दौरान हमें किस प्रकार का निर्माण करना है | कैसे अवनति से उत्थान की ओर बढना चाहिए |

हमें यह ध्यान रखना चाहिए की सहयोग और सहभागिता का मंत्र ही हमारे कार्य को सुचारु रूप से चलाने में सहायक होगा | इसलिए मैं इस चुनौती भरे काल में सभी से सहयोग व सहभागिता करने का निवेदन करती हूँ और सभी के सुरक्षित भविष्य की कामना करती हूँ |

Dear Learners,

Subject: Online E - Learning Aids

Greetings of the Day!

The nationwide corona virus lockdown is set to be extended to safe livelihood along with lives. As you are aware, COVID-19 has impacted our lives in every way. The rising concern is the impact on the education, primarily syllabus completion of our Classes 10 and 12 aspirants. As a progressive institution that incorporates technology in every aspect of life, DPS Gandhidham is looking into the ways and means of continuing our teaching and learning schedule as already we are in progress. The alternatives being considered include applications such as Zoom, Google Classroom, presentations aired through YouTube, etc. We solicit your cooperation, as always, in this initiative.

Therefore, we are considering this as an opportunity to shift focus from ‘schooling only at schools’ to ‘School-Home collaboration for learning’. This is the time to build a synergy between the home environment and school environment. The role of parents might be one of the most vital ingredients for building a learning community. The deep connection between schools and homes can help children understand societal involvement in the light of redefined social roles. And even more importantly, it will bring back the focus on learning becoming a habit, a lifestyle that is integrated into every aspect of our daily lives, and not just something that you do at school. Once again, there is no end to the possibilities here.

I thank you for your goodwill and support.

STAY SAFE, STAY HOME, KEEP LEARNING

With Warm Regards,

**Dr. SUBODH THAPLIYAL

DPS-G/Circular/DIR/2020-21

Date: April 19, 2020

CIRCULAR (Classes IX to XII)

Dear Teachers, Parents & Students

Subject: CHANGE IN SYLLABUS (2020-21)

Greetings of the Day!

The curriculum refers to the lessons and academic content to be taught to a learner in the school. In empirical terms, it may be regarded as the sum total of a planned set of educational experiences provided to a learner by a school. It encompasses general objectives of learning, courses of study, subject-wise instructional objectives and content, pedagogical practices and assessment guidelines. The curriculum provided by CBSE is based on National Curriculum Framework-2005 and seeks to provide opportunities for students to achieve excellence in learning.

You are requested to go through the given changed pattern of the syllabus for the academic year 2020-2021 developed by the board. The syllabus helps the students to interpret the course purposes and assist in productive learning and better preparation for the examination. In the syllabus, chapters and its concepts are provided. This furnishes the students a fair idea of the question paper pattern, by providing them with the merit to accurately plan their study time table. Planning for assignments for the academic year is clarified with the syllabus. **I request the concerned subject teachers to discuss with the respective students as well.**

I thank you for your goodwill and support.

STAY SAFE, STAY HOME, KEEP LEARNING

With Warm Regards,

**Dr. SUBODH THAPLIYAL
DIRECTOR**

Strengthening Assessment and Evaluation Practices of the Board

Competency Based Education (CBE) is an outcome based approach to schooling, where attainment of goals takes priority. Learning Outcomes (LOs) are defined in terms of competencies and capacities, which students acquire and demonstrate at the end of instructional programme. In CBE, explicitly defined learning outcomes guide instruction; instruction is more flexible, learner centric, learner-led and provides multiple opportunities for learning; and assessment is authentic and examines if the students are able to apply required concepts in real life situations. The Board has adopted Learning Outcomes developed by NCERT and the theme of the Capacity Building Programmes for the year 2020 is Competency Based Education. Augmenting the thrust towards CBE, the Board is initiating corresponding changes in the Examination and Assessment practices for the year 2020-21 onwards. While the overall marks and duration of examination shall remain same, change in the composition of assessment tasks would help us achieve the desired ends.

The changes for classes IX-XII (2020-21) year-end/Board Examination are as under:

OLABS

The **OLabs** is based on the idea that lab experiments can be taught using the Internet, more efficiently and less expensively. The labs can also be made available to students with no access to physical labs or where equipment is not available owing to being scarce or costly. This helps them compete with students in better equipped schools and bridges the digital divide and geographical distances. The experiments can be accessed anytime and anywhere, overcoming the constraints on time felt when having access to the physical lab for only a short period of time.

• **The features include :**

- **Content aligned to NCERT/CBSE and State Board Syllabus.**
- **Physics, Chemistry, Biology Labs from Class 9 to Class 12. English and Maths lessons for Class 9 and 10.**
- **Interactive simulations, animations and lab videos.**
- **The concepts and understanding of the experiment.**
- **The ability to perform, record and learn experiments - anywhere, anytime, and individualized practice in all areas of experimentation.**

The 'learning-enabled assessment' through **OLabs** facilitates in the assessment of; the procedural and manipulative skills of the experiment, the concepts and understanding of the experiment and a student's reporting and interpreting skills. The development of **OLabs** includes the study and use of mathematical techniques to demonstrate the various complex functions in diverse areas of science. The labs make use of cutting edge simulation technology to create real world lab environments. Thorough study and research is done by research personnel for better understanding of the experimental procedures. Real lab scenarios are captured through live demonstration of the experiment so as to assimilate information on the procedures and lab equipment. Visualisation and development of the graphical symbols are done based on realistic situations and compared with the respective real equipment. Simulations are made interactive using various authoring tools, thus recreating and simulating a real lab environment.

Dear Parents & Students,

Greetings of the Day!

Subject: KISHORE VAIGYANIK PROTSAHAN YOJANA EXAM

The **Kishore Vaigyanik Protsahan Yojana (KVPY)** is an ongoing National Program of Scholarship or Fellowship in basic sciences, initiated and funded by Department of Science and Technology (DST), Government of India. The aim of the program is to identify and encourage exceptionally highly motivated students to for pursuing basic science courses and research careers in the field of Science.

The program strives to assist the students to realize their potential and to ensure that the best scientific talent is tapped for research and development in the country. Through this program, candidates who are selected will be awarded Fellowships up to Pre-Ph.D level. The program is administered by the Indian Institute of Science (IISc), Bangalore, in association with IISER-Kolkata, HBCSE-Mumbai, IIT (B) Mumbai and ICMR – New Delhi.

KVPY ELIGIBILITY ENTRY POINTS - 2020

The Eligibility Criteria for KVPY determines who can and who cannot apply for KVPY Fellowship. The following are the common conditions in KVPY Exam Eligibility 2020 for all streams:

Stream SA: Students enrolled in XI Standard (Science Subjects) during the academic year 2019-20 and having secured a minimum of 75% (65% for SC/ST/PWD) marks in aggregate in MATHEMATICS and SCIENCE subjects in the X Standard Board examination immediately in the preceding academic year are eligible to appear for Aptitude test.

Stream SX: Students enrolled in XII Standard/ (+2) (Science subjects) during the academic year 2019–20 and aspiring to join undergraduate program in Basic Sciences namely Physics/Chemistry/Mathematics & Biology leading to B.Sc./B.S./B.Stat./B.Math./Int. M.Sc./Int. M.S. for the session 2020–21 provided they have secured a minimum of 75% (65% for SC/ST/PWD) marks in aggregate in MATHEMATICS and SCIENCE subjects (Physics/Chemistry/ Biology) in the X Standard Board Examination during the academic year 2017-18 are eligible to appear for the Aptitude test.

Stream SB: Students enrolled in the 1st year of undergraduate program in Basic Sciences namely Physics/Chemistry/Mathematics & Biology leading to B.Sc./B.S./B.Stat./B.Math./Int. M.Sc./Int. M.S. during the academic year 2019–20 and having secured a minimum of 60% (50% for SC/ST/PWD) marks in aggregate in MATHEMATICS and SCIENCE subjects (Physics/Chemistry/Biology) in the XII Standard Board Examination are eligible to appear for the Aptitude test. In the 1st year final examination of B.Sc./B.S./B.Math./B.Stat./Int. M.Sc./Int. M.S. they must secure 60% (50% for SC/ST/PWD) marks before taking up the fellowship, if awarded.

The fellowship of the students selected under this stream will be activated only if they join an undergraduate course in Basic Sciences (B.Sc./B.S./B.Stat./B.Math./Int. M.Sc./Int. M.S.) in the academic year 2021-22 after having secured a minimum of 60% (50% for SC/ST/PWD) marks in aggregate in MATHEMATICS and SCIENCE subjects (Physics/Chemistry/Biology) in the XII standard Board Examination during academic year 2019-20. During the interim period of one year they will be invited for the National Science (Vijyoshi) Camp and their travel expenses and local hospitality will be met by KVPY.

The aspirants who belong to India can apply for KVPS Test. The candidates who are from other countries, i.e., whose nationality is not India cannot register for KVPY Scholarship. The notification clearly states that any student/aspirant should satisfy the mentioned conditions in order to write KVPY Aptitude Test. Hence, KVPY Eligibility for Droppers is that they cannot apply for the exam nor they can get KVPY Fellowship.

KVPY Syllabus and Exam Pattern (Streams SA, SB, SX)

The syllabus consists of four Subjects namely Physics, Chemistry, Mathematics & Biology. The streams here refer to the classes of the students i.e., 10th/11th/12th/1st year of B.Sc/BS/B.Stat./B.Math./Int.M.Sc/MS etc.

KVPY Syllabus for SA:

Stream SA consists of all the topics and chapters from Class X and XI. The four major subjects that are covered in SA stream include Physics, Chemistry, Biology and Mathematics.

- **Physics:** Applications in Daily Life, Kinematics, Laws of Motion, Work, Energy and Power, Physical World and Measurement, Gravitation, Thermodynamics, Magnetic Effects of Current, Sources of Energy, Reflection, Refraction, Electromagnetic Induction.
- **Chemistry:** Thermodynamics, States of Matter: Gases and Liquids, Classification of Elements and Periodicity in Properties, Environmental Chemistry, Chemical Reactions, Metals and Nonmetals, Periodic Classification of Elements, Carbon Compounds, Acids, Bases and Salts, Basic Concepts of Chemistry.
- **Mathematics:** Coordinate Geometry, Mathematical Reasoning, Statistics and Probability, Trigonometric Functions, Real Numbers, Polynomials, Geometry, Introduction to Trigonometry, Statistics, Quadratic Equations, Probability, Surface Areas, and Volumes.
- **Biology:** Plant Physiology, Diversity of Living Organisms, Cell: Structure and Function, Human Physiology, Control and Coordination in Animals and Plants, Heredity and Evolution, Reproduction, Life Processes, Our Environment.

KVPY Syllabus for SX:

Stream SX consists of topics and chapters from classes Class X, XI & XII. Again the same four subjects are covered in the syllabus – Physics, Chemistry, Biology and Mathematics. It is just that the KVPY Syllabus for Class 12 is added for SX stream.

- **Physics:** Thermodynamics, Electrostatics, Refraction, Current Electricity, Electromagnetic Induction and Alternating Current, Magnetic Effects of Current, Reflection of Light, Electromagnetic Induction, Kinematics, Work, Energy and Power, Sources of Energy, Physical World and Measurement, Gravitation, Laws of Motion.
- **Chemistry:** Chemical Reactions, Environmental Chemistry, Solid State, Electrochemistry, Chemical Kinetics, Isolation of Elements, Periodic Classification of Elements, Surface Chemistry, States of Matter: Gases and Liquids, Metals and Nonmetals, Carbon Compounds, Basic Concepts of Chemistry, Thermodynamics, Classification of Elements and Periodicity in Properties.
- **Biology:** Human Physiology, Biology and Human Welfare, Control and Coordination in Animals and Plants, Ecology and Environment, Cell: Structure and Function, Genetics and Evolution, Life Processes, Plant Physiology, Diversity of Living Organisms, Reproduction.
- **Mathematics:** Trigonometric Functions, Geometry, Linear Programming, Vectors and 3D Geometry, Calculus, Relations and Functions, Coordinate Geometry, Mathematical Reasoning, Real Number, Polynomials, Introduction to Trigonometry, Surface Areas and Volumes, Statistics and Quadratic Equations, Probability, Statistics, and Probability.

KVPY Syllabus for SB:

Stream SB consists of topics along with class 10th and 12th syllabus, 1st year of under graduation syllabus is also covered for the same said subjects.

- **Physics:** Thermodynamics, Reflection, Electrostatics, Current Electricity, Electromagnetic Induction and Alternating Current, Waves and Optics, Electricity and Magnetism, Electrostatics and Thermal Physics, Electromagnetic Induction, Physical World and Measurement, Sources of Energy, Refraction and its Applications in Daily Life, Kinematics, Laws of Motion, Magnetic Effects of Current, Work, Energy and Power, Gravitation.
- **Chemistry:** Metals and Nonmetals, Environmental Chemistry, Solid State, Electrochemistry, Chemical Kinetics, Isolation of Elements, Surface Chemistry, Chemical Bonding, Chemistry of Noble Gases, Structure and Bonding, Alkenes, Cycloalkenes, Dienes and Alkynes, Thermodynamics, Chemical Reactions, Basic Concepts of Chemistry, Periodic Classification of Elements, Carbon Compounds, Acids, Bases and Salts, States of Matter: Gases and Liquids, Classification of Elements and Periodicity in Properties.
- **Biology:** Plant Physiology, Reproduction, Diversity of Living Organisms, Cell: Structure and Function, Biology and Human Welfare, Biotechnology, Genetics, Life Processes, Human Physiology, Control and Coordination in Animals and Plants, Genetics and Evolution, Our Environment, Ecology and Environment.
- **Mathematics:** Coordinate Geometry, Mathematical Reasoning, Statistics and Probability, Trigonometric Functions, Linear Programming, Relations and Functions, Analytical Geometry in Two Dimensions, Vector Algebra, Evaluation of Integrals, Statistics, Surface Areas and Volumes, Vectors and 3D Geometry, Calculus, Real Number, Polynomials, Geometry, Introduction to Trigonometry, Quadratic Equations, Probability.

Preparation Tips for KVPY 2020 Exam

• **Set a Timetable:**

First, check the topics which arise in the KVPY 2020 exam. Set a schedule for each subject and examine how much time is required for each subject. Give more time for the difficult subjects.

• **Notes Preparation:**

Make notes for every chapter from the KVPY study material to revise before the KVPY 2020 exam.

• **List of Formulas:**

Make a list of important formulas while studying each chapter which will be easy to refer at the time of the KVPY 2020 exam.

• **Practice Previous Question Papers:**

As the questions from the KVPY previous papers may repeat in the present exam, You need to practice KVPY sample papers to get success in the KVPY 2020 exam.

• **Take Mock Test:**

Through the mock test, you can evaluate your strengths and weakness. You can focus on weak points and try best for the next time.

• **Choose better study material:**

Study material plays the main role to crack the KVPY exam. As your preparation goes through the study material, you need to check which study material gives you the relevant information.

If the KVPY Eligibility applies to you, then don't waste your time and register for KVPY Scholarship or Fellowship.

Dear Learners,

Subject: Question Bank for Practice- Class X through DIKSHA App

Greetings of the Day!

CBSE announces **Question Bank for Practice for Class 10th students**; a program that will cater to students who wish to measure their understanding of a given topic by leveraging a rich repository of questions and possible answers for revision. **The program comprises of 2000+ questions and answers for all core subjects:** Maths, Science, English- Foot Prints Without Feet, English- First Flight, Hindi-Sanchayan 2, Hindi- Sparsh 2, Political Science, Geography, Economics and History.

Through this program, the students will have access to questions and their possible step by step solutions which have been curated by subject teachers of schools affiliated to CBSE. It may be noted that the answers can be written in many different ways, and that this is not the only way to do so.

It may also be noted that these questions should only be considered as practice questions and that they have no relation to board examination 2020. Detailed instructions for students/teachers/parents to access the Question Bank is attached in

I hope that this program helps make revision more interesting for all our students!

I thank you for your goodwill and support.

“The future depends on what we do today” – Mahatma Gandhi

Dear Esteemed Nation Builders,

Subject: The Ultimate E - Resources

Greetings of the Day!

With the core thought from the quotation by the father of the nation, DPS Gandhidham feels fortunate to have you as a Learning Partner. The school cannot help appreciating your all-out and painstaking efforts and endeavours in preparing, planning and executing the lessons in these testing times. For this novel E-teaching, you are trying hard and seen working late into the night. It is not an exaggeration that the academic welfare of the students is assured because of your unconditional support and care. Not only are you a teacher but also a wonderful role model to your students. As a progressive institution that incorporates technology in every aspect of life, DPS Gandhidham is looking into the best possible ways and means of supporting the E-teaching and learning process.

Let us more strongly stick to the shift of our focus from ‘schooling only at schools’ to ‘School-Home collaboration for learning’. We must continue to build the synergy between the home environment and school environment. We can be a member in the family of our students through the E-teaching learning. Above all, it brings back the focus on learning becoming a habit, a lifestyle that is integrated into every aspect of our daily lives, and not just something that we do at school.

Let us recall Shri. Mahatma Gandhi’s words **“Strength does not come from physical capacity. It comes from an indomitable will”**. We have the will and wish to succeed. At this juncture, I take the pleasure of helping you with the following few resources that will make our bond with the students even stronger.

I thank you for your goodwill and support once again.

STAY SAFE, STAY HOME, KEEP LEARNING

Dear Parents and Students,

SUBJECT: ADVISORY TO PARENTS REGARDING CHILDREN'S SAFETY & LEARNING DURING LOCKDOWN

Greetings of the Day!

Amid COVID-19 lockdown, all the educational institutions across the country are instructed by the government of India to observe a precautionary shutdown for an uncertain length of time. This unexpected break has created a significant gap in the learning schedule of students. To ensure learning, the schools have been advised to use an online platform to conduct classes. But the process has not been smooth for various valid reasons. The students are very vulnerable to overstrain eyes, be easy prey to many free sites in open domain etc. This demands constant advice and vigilance from the parents, which ensures the health and cyber safety of their children.

To safeguard the innocent children from accessing inappropriate internet content, to avoid cyber bullying and online predators etc., DPS Gandhidham would like to issue the following precautionary measures to be strictly adhered to by the students and parents while accessing to online classes/ study material.

- ✚ **Attending online classes/ accessing to online study material should be done in a common area preferably in the living room and in the presence of an adult.**
- ✚ **Filtering inappropriate contents in the device through settings**
- ✚ **Having Parental Control Software to the devices**
- ✚ **Having two-factor authentication (Security PIN) to open the device**
- ✚ **Teaching kids how to browse internet and the content that needs to be looked for in order to maintain appropriate online behavior**
- ✚ **Taking the children seriously if he/she reports an uncomfortable online exchange**
- ✚ **Teaching that the internet provides anonymity**
- ✚ **Having a check on the credit card and Mobile usage (Call/Data) and unfamiliar account charges if any.**

Finally, DPS Gandhidham has a firm faith that observing the above religiously will ensure the children's safety without being them exposed to the potential dangers.

Let us **STAY VIGILANT**, **STAY SAFE**, and **STAY POSITIVE** to ourselves and negative to COVID-19!!!

With Best Wishes

Why is it important to know about cyberbullying?

Cyberbullying involves the use of electronic communication to bully a person, typically by sending messages of an intimidating or threatening nature and is a punishable offence under the Information Technology Act, 2000 and the Indian Penal Code. It also involves posting pictures or videos aimed at harassing another person. A whole gamut of social platforms, including chat rooms, blogs and instant messaging are used in cyberbullying.

With COVID-19 closing schools across all states, Education Departments have made efforts to ensure continuity of learning through various digital platforms. Millions of learners are turning to online education and with this comes a huge increase in use of electronic devices and Information and communication Technologies (ICTs). This places children and young people at risk of online abuse, increasing their vulnerability to cyberbullying. Cyberbullying is widespread and affects a significant number of children and adolescents and infringes their rights to education and to health and well-being.

There are considerable negative effects of cyberbullying, including on academic achievement, mental health, and quality of life in general. Online bullying often prevents teachers from imparting quality education through digital platforms and acts against the provision of safe, non-violent and inclusive learning environments for all.

Cyberbullying includes

Posting hurtful, nasty rumours or comments on updates, pictures and videos shared by an individual on websites.

Uploading embarrassing photographs online without the person's permission.

Excluding individuals of different cultural, socio-economic backgrounds from online groups and forums.

Stealing someone's account password and sending unwanted/inappropriate messages from that account to harass other individuals.

How to stay safe online?

Do's

- Create a strong password according to password guidelines, and frequently change passwords to prevent misuse.
- Read the privacy settings very carefully on social networking sites.
- Communicate only with known people.
- Be careful while posting photographs, videos and any sensitive information on websites as they leave digital footprints which stay online forever.
- Ensure that only authorized personnel access computer systems and labs.
- Report immediately to the support team of networking site if you suspect that your account have been hacked or stolen.
- Invest in a strong network security system.
- Use only verified open source or licensed software and operating systems.
- Set up your computer for automatic antivirus software and operating system updates.

Don'ts

- Don't reveal your password to anyone other than your parent or guardian.
- Don't reveal personal information like age, address, phone number, school name etc. as this can lead to identity theft.
- Don't post anything which hurts others feelings.
- Don't post your friends' information on networking sites, which can put them at risk.
- Don't forward anything that you read on social media without verifying it from a trusted source.
- Don't leave your account unattended after login, log out when you are not using it.
- Don't create fake profiles for yourself on any social networking site.
- Don't use personal devices such as personal USBs or hard drives on public networks or computers.
- Don't open links and attachment on social networking sites and block file extensions such as .bat, .cmd, .exe, .pif by filtering software.

The law supports you!

Cyberbullying is a punishable offence under the Information Technology Act, 2000 and the Indian Penal Code.

All children and adults MUST report cases of cyberbullying to the police (Dial: 112).

How to prevent and counter cyberbullying?

Do not respond

If someone is bullying you online, DO NOT respond or retaliate by doing the same thing. Responding or retaliating may make matters worse or even get you into trouble.

Collect as much information as possible

Take a screenshot of anything that you think could be cyber bullying and keep a record of it.

Block and report

If someone bothers you, make sure you block the offender and report on the social media platform immediately. This feature is available on most online platforms.

Talk about it

Inform trusted adults like your parents and teachers about the bullying incident. Seek help. Do not feel that you are alone and never keep it to yourself.

Be private

Keep your social media privacy settings high and do not connect with anybody who you do not know offline.

Be aware

Remain updated with all the preventive and security measures in the cyber world.

Society for the Promotion of Indian Classical Music And Culture
Amongst Youth

THE SPIC MACAY EXPERIENCE: GOLDEN CHANCE TO BE GLAD

SPIC MACAY stands for Society for the Promotion of Indian Classical Music And Culture Amongst Youth. It is a non-profit, non-political, nation-wide, voluntary, and participatory student movement founded in 1977 by **Padma Shri Dr Kiran Seth**, Professor-Emeritus at IIT-Delhi.

Ever since its inception, it has been striving every nerve to enrich the quality of formal education among adolescents and youth by raising awareness about various aspects of Indian heritage and motivating young minds to imbibe the values contained therein. It has been greatly influencing the lives of millions in India and abroad and their thinking to become better human beings. The most accomplished Indian and international classical artistes render programmes of Indian classical music and dance, folk, poetry, theatre, traditional paintings, crafts and yoga primarily in schools and colleges and educational institutions in India and worldwide.

During the current COVID-19 crisis, SPIC MACAY is making an effort from 1st June to 7th June, 2020 to connect teenagers and youth online with the best of classical music, dance and other art forms. This special series of '**SPIC MACAY EXPERIENCE**' is from the world-famous art Gurus like **Pandit Hariprasad Chaurasia, Ustad Shahid Parvez, Smt. Teejan Bai, Ustad Amjad Ali Khan, Pandit Shiv Kumar Sharma, Smt. Shabana Azmi, Ustad Bahauddin Dagar, Ustad Wasifuddin Dagar, Smt. Rohini Hattangadi, Begum Parveen Sultana, Smt. Kapila Venu Sh. Javed Akhtar**. It is telecast live on the YouTube channel <https://www.youtube.com/user/spicmacay>.

STAY SAFE, STAY HOME, KEEP LEARNING

With Best Wishes

-SWAMI VIVEKANANDA

Dear Parents and Students,

Subject: DELHI PUBLIC SCHOOL - TALENT HUNT OLYMPIADS (DTHO - 2020)

Greetings of the Day!

We would like to express our sincere gratitude to all our stakeholders especially to the students, parents, well-wishers and last but not least the highly talented staff members of this amazing institution. The idea of conducting **DELHI PUBLIC SCHOOL -TALENT HUNT OLYMPIADS (DTHO)** was conceived and executed in the year 2015 (**Free of Cost Concept With Quality**), where **Dr. SUBODH THAPLIYAL** laid the foundation for **DTHO** in **DPS Warangal, Telangana State** and then in **DPS Gandhidham** in the Year 2018. It is growing and expanding its wings and we have conducted these Olympiads in **Nine** other different schools throughout India. Our goals for participants include developing enthusiasm for problem solving, deepening the understanding of concepts and strengthening ability to use these concepts, building a stronger foundation for assessments and for future competitive examinations. This is only possible as I am blessed to have an extraordinary team at **DPS Warangal & Gandhidham**.

Taking forward the motto of our school Delhi Public School, Gandhidham, **"Service Before Self"** where I strongly believe that the role of the school is not only to make its students pursue academic excellence but also to motivate and empower them to be life-long learners, critical thinkers and productive members of an ever-changing global society. To hold water in this regard, the school is striving hard to make the best possible efforts to inculcate strong values coupled with academics and extra-curricular activities in the children.

You are requested to make a note of the following details in regard to the **"DPS Talent Hunt Olympiads (DTHO - 2020)"** to be conducted **ONLINE** due to **COVID-19 LOCKDOWN** by the school during the session 2020-21. These **Online-Based Olympiads** are purely **OPTIONAL** and are based on the student's previous learning.

On behalf of the Management, Facilitators and Stakeholders, I wish a great learning year to the students of DPS Gandhidham despite the physical distance from the school.

All the Best !

STAY SAFE, STAY HOME, KEEP LEARNING

With Warm Regards,

Dr. SUBODH THAPLIYAL

'We do not inherit the earth from our ancestors, we borrow it from our children'

Dear Parents & Students,

Subject: ONLINE EARTH DAY COMPETITION (2020-21)

Greetings of the Day!

On December 24, 1968, astronauts on the moon took the first full color photo of the Earth. This photo, titled "Earthrise," showed us both strength and fragility of our planet while helping launch the modern environmental movement. That movement took a historic step forward just over two years later, 20 million people turned out for the world's **First Earth Day** to be celebrated on **April 22, 1970**.

With social distancing in full force this Earth Day, the 50th anniversary of this environmental movement is certainly one for the history books. Just because you can't go outside in large groups this year doesn't mean there aren't plenty of inventive ways to celebrate Earth, though. The Earth Day 2020 theme is "**CLIMATE ACTION**," and while we aren't able to come together physically this year, technology is presenting some unique opportunities to show your love for the Earth virtually.

While this pandemic may physically distance us, it will not silence or divide us. Through the power of digital media, we're more connected than ever. On Earth Day 2020, we seize all the tools and actions that we have, big and small, to change our lives and change our world, not for one day, but forever. So let's join hands to make our Earth a better place to live in. A beautiful world starts with you. The Earth is our home, so blue and so green, so let's do our part to keep it clean.

FEW THINGS WHICH WE CAN DO AT HOME:-

- ✓ Stay home stay safe
- ✓ Keep your house and surroundings clean
- ✓ Turn off the lights and fans when not needed and switch off fluorescent bulbs
- ✓ Do not waste water
- ✓ Take the stairs instead of lift
- ✓ Turn off your computers and mobiles at night
- ✓ Use both sides of the paper
- ✓ Use bucket instead of shower
- ✓ Eat local and seasonal food (cut off on outside food/junk food)
- ✓ Take care of plants
- ✓ Whenever or wherever possible go walking or on bicycle
- ✓ Reduce-Reuse-Recycle

FEW SUGGESTIONS FOR PARENTS:-

- ✓ Watch a documentary or movie that touches on an ecological issue. An Inconvenient Truth (2006), the Burning Season (1993, 2008), Elemental (2012) and The Day after Tomorrow (2004).
- ✓ Read one of many books online that relate to environmental issues such as, *The World Without Us* (Alan Weisman), *Hell and High Water* (Joseph Romm) and *Natural Capitalism* (Hawken, Lovins and Lovins)
- ✓ <https://youtu.be/cbulNX8Aygl> listen to this beautiful Earth song along with your kids.

STAY SAFE, STAY HOME, KEEP LEARNING

With Warm Regards,

Dr. SUBODH THAPLIYAL
DIRECTOR

Earth Day Song
(tune: Twinkle, Twinkle)

Earth Day, Earth Day,
Comes once a year.
But we should make our
message clear.
Love and clean our Earth
each day.
Make that plan a plan to
stay.
Earth Day, Earth Day,
Comes once a year,
Love and care for our
Earth so dear.

“Art gives us hope, purpose and desire to see beyond the problems of difficult times.”

Dear All,

SUBJECT: ONLINE ART COMPETITION 2020 - THEME: ‘LOCKDOWN AND ME’

Greetings of the Day!

Amid the unprecedented confinement of COVID-2019, we are able to have a plethora of free time. It is not an exaggeration that people, at this time, have started working on everything they wanted in a vacation. Some have started honing their latent skills while others sharpening creative sides.

Over centuries, humanity has shown great resilience in overcoming unsettling times and we would like to capture this moment. As an effort to develop consonance among us and to bring together the expressions of similar emotions being experienced, **DPS Gandhidham** is organising an **Online Art Competition 2020** with a COVID-19 related theme **“Lockdown and Me”**. DPS Gandhidham believes that you will be able to turn these unexpected moments into unforgettable ones through the creative expression of your emotions, feelings, notions, motions, views, and ideas on the COVID-19 Lockdown, social distancing, quarantine and the fight against the virus.

The Following are the Details of the Online Art Competition 2020

CATEGORY	PARTICIPANTS	LAST DATE TO SUBMIT
1	Students of Class III to V	On or before 30 th April, 2020
2	Students of Class VI & VII	
3	Students of class VIII to XII	
4	Teachers, Parents and Grandparents	

IMPORTANT POINTS TO REMEMBER:

- There is no restriction on the use of tools and medium. The tools can be regular pencils, graphite pencils, coloured pencils, charcoal, crayons, sketch pens, oil pastels, water colours, acrylic colours, oil colours etc. The drawing, sketching or painting can be done on a canvas, regular office stationery paper, drawing paper or any other surface suitable for drawing or painting.
- The work of an artist is classified into any one of the following four categories: **Contemporary Art, Folk & Tribal Art, Cartoons & Illustrations, Digital & New Age Art**
- **Each participant can submit only one entry.**
- All the entries must reflect the theme **“Lockdown and Me”** in their art.

An entry is accepted if and only if the participant sends three photographs of his/her art, taken at three stages as given below. (Submit only on completion)

1. While making the art (With the artist and the art inside your house)
2. After completing the Art (With the artist and the art inside your house)
3. Only the photo of the finished Art

The submissions must only be done through WhatsApp Numbers given below

Category No: 1, 2 & 4	<ul style="list-style-type: none"> • Classes III to VII • Teachers, Parents & Grandparents 	Mr. Donga Babu Ph: 9825545425
Category No: 3	<ul style="list-style-type: none"> • Classes VIII to XII 	Mr. Sanjit Halder Ph: 7435918144

Mention your Name, Class (Student), Date of Creation and Category No. on Submission

Let us make our quarantine more creative and innovative! Let us put ourselves on lockdown to keep corona virus out of the town!

STAY SAFE, STAY HOME, KEEP LEARNING

With best wishes,

Dr. SUBODH THAPLIYAL

“To sing is to pray twice.” – St. Augustine

Dear All,

SUBJECT: INTRA CLASS RISING STAR - VOCAL MUSIC COMPETITION – 2020

Greetings of the Day!

Amid unprecedented confinement due to COVID-19 we are able to have a plethora of free time. It is not an exaggeration that people, at this time, have started working on everything they wanted in a vacation. Some have started honing their latent skills while others sharpening creative sides.

Over centuries, humanity has shown great resilience in overcoming unsettling times and we would like to capture this moment. DPS Gandhidham believes that you will be able to turn these unexpected moments into unforgettable ones through the creative expression of your emotions, feelings, notions, and motions during the COVID-19 lockdown.

This year the board and the different Ministries of Govt. have initiated to integrate the scope of different student enrichment activities such as “Heritage of India”. With that said, DPS Gandhidham is back yet again to explore the innate abilities of the students, parents and teachers through a solo vocal competition. This is held as an **Intra Class E-Competition** with the name **Intra Class Rising Star Vocal Music Competition - 2020** for the children of **Classes III till XII** and as a **General E - Competition** with the name **Rising Star Vocal Music Competition - 2020** for the **Parents and Teachers**.

The Theme for the Competition is “Indian Culture & Heritage.”

The tone and tenor of a learning environment has already set in and we as individuals are simultaneously rediscovering our hidden skills and passion for the unknown. Nothing can stop us from taking the road to self-discovery and self-awakening.

Let us make our quarantine more creative and innovative!

STAY INDOORS! SPREAD WARMTH!! STAY BONDED!!!

With best wishes,

Dr. SUBODH THAPLIYAL

“Dance is the hidden language of the soul.”- Martha Graham

DEAR ALL,

SUB : ONLINE SOLO DANCE COMPETITION-2020

THEMES- **“UNITED INDIA”- Patriotism (Pri-Primary till Class II)**

“JHANKHI BHARAT KI”- Folk Dances Of India(Classses III-XII)

Greetings of the Day!

Over centuries, humanity has shown great resilience in overcoming unsettling times and we would like to capture this moment.

The word 'Hope' is a powerful thing. It inspires us to do the impossible and helps us carry on during difficult times with positivity.

Keeping the word 'Hope' in mind, the prevailing situation has strengthened the bond between the fraternity to an extent that we together strive for excellence, perfection and meaningful and practical deliverables.

The tone and tenor of a learning environment has already set in and we as individuals are simultaneously rediscovering our hidden skills and passion for the unknown.

Nothing can stop us from taking the road to self discovery and self awakening.

With that said, DPS Gandhidham is back yet again to explore the innate skills of the students through an online **Solo Dance Competition 2020 for the children of Classes Pre-Primary till Class XII.**

The Themes for the same are as follows-

“United India”- Patriotism (Pre-Primary till Class II) -Free Style Dance

“JHANKHI BHARAT KI”- Folk Dances Of India (Classes III-XII)-**Bhangda, Garba, Bihu, Ghoomar, Koli, etc.**

Kindly find enclosed the details below as follow-

This year the board and the different Ministries of Govt. have initiated to integrate the scope of different student enrichment activities such as “Celebration of Ek Bharat Shrestha Bharat”, DPS Gandhidham believes that you will be able to turn these unexpected moments into unforgettable ones through the creative expression of your emotions, feelings, notions, motions during the COVID-19 Lockdown.

“Music gives a soul to the universe, wings to the mind, flight to the imagination and life to everything” – Plato

Dear All,

INTRA CLASS RISING STAR -

INSTRUMENTAL MUSIC COMPETITION – 2020

Greetings of the Day!

Amid unprecedented confinement due to COVID-19 we are able to have a plethora of free time. It is not an exaggeration that people, at this time, have started working on everything they wanted in a vacation. Some have started honing their latent skills while others sharpening creative sides. Over centuries, humanity has shown great resilience in overcoming unsettling times and we would like to capture this moment. DPS Gandhidham believes that you will be able to turn these unexpected moments into unforgettable ones through the creative expression of your emotions, feelings, notions, and motions during the COVID-19 lockdown.

With that said, DPS Gandhidham is back yet again to explore the innate abilities of the students, parents and teachers through a solo vocal competition. This is held as an **Intra Class E-Competition** with the name **Solo Instrumental Music Competition - 2020** for the children of **Classes III till XII** and as a **General E - Competition** with the name **Rising Star Instrumental Music Competition - 2020** for the **Parents and Teachers**.

The Theme for the Competition

BOLLYWOOD MUSIC

The tone and tenor of a learning environment has already set in and we as individuals are simultaneously rediscovering our hidden skills and passion for the unknown. Nothing can stop us from taking the road to self-discovery and self-awakening.

Let us make our quarantine more creative and innovative!

STAY INDOORS! SPREAD WARMTH!! STAY BONDED!!!

With best wishes,

Dr. SUBODH THAPLIYAL
DIRECTOR

The Programme for International Student Assessment is a worldwide study by the Organisation for Economic Co-operation and Development (OECD) in member and non-member nations intended to evaluate educational systems by measuring 15-year-old students' reading, mathematics, and science literacy every three years.

By design, **PISA** emphasizes functional skills that students have acquired as they near the end of compulsory schooling. scholastic performance on mathematics, science, and reading.

"Sustainable development refers to a mode of human development in which resource use aims to meet human needs while preserving the environment so that these needs can be met not only in the present, but also for the generations to come"

-Dr. A.P.J Abdul Kalam

Dear Parents and Students,

Subject: DPS_MUN_Ki_Baat - Chapter # 4, Sustainable Development Goals-2030

Greetings of the Day!

We, DPS Gandhidham, profoundly believe in nurturing students with a global consciousness and awareness. It is imperative in this shrinking world that our students are able to comprehend the world around them and develop deeper understanding of the current world issues. Our growing generations are the promise of today and hope for tomorrow. It is our passion and commitment that makes this planet a better place for living. **Sustainable Development Goals - 2030** are adopted by all United Nations Member Countries for a better present as well as future. <https://youtu.be/pgNLonYOc9s>

To inculcate the values of **SDGs** in education system, the solution we found was **MODEL UNITED NATIONS (MUN)**. It was the starting point; in the history of our country DPS Gandhidham introduced organising **MUN** for students, teachers, parents and members of different professions. The school DPS Gandhidham believes in educational ethics and in tireless commitment to the learning and overall wellbeing of our student community.

It gives me immense pleasure to invite you to the **Fourth Edition of Model United Nations Conference 2020**, to be hosted by DPS Gandhidham. I would like to enunciate that this event will be conducted on a **Zero Registration Fee** for all, as it is a global issue we are going to ratify. **The details of this prestigious event are given below and the details of agenda for the same will be communicated to you after the Registration.** Our vision is to create a world of solidarity, trust, and peace, with an intellectually stimulating environment to the delegates and faculty advisors of your institution to engage in fruitful discussion and learn the intricacies of debating, diplomacy and negotiations through experience. We endeavour, through this conference, to establish a paradigm change in the spirit with which Model United Nations Conferences are conducted, and provide the best of logistical support to dignitaries and delegates in order to facilitate a smooth and efficient of deliberations for three days.

I hope to see you having an outstanding accomplishment by showcasing your abilities to the world. I have faith that each and every one of you will do a marvellous job. This, is the future we want; People, Planet, Peace, Prosperity and Partnership.

*Without **BOOKS** life is impossible. They are our best friends, guides and philosophers. Everyone connects to the books from birth. They share our pain and direct us to lead the future with confidence. They bring light into darkness and the sunshine into shadow. They help us become a better human being and also teach us how to serve the society in the best possible way.*

*To mark the importance of reading, foster children's growth as readers, and promote a lifelong love of literature and integration into the world of work, DPS Gandhidham, on 23rd April, 2020, celebrated the **WORLD BOOK AND COPYRIGHT DAY** 2020. In the groundbreaking celebration, some of the book lovers and bookworms - our Director, Headmistress, Teachers, Students and Parents shared their reviews digitally on the most loved or influential books that they read in their life. This kindled and rekindled the interest in the viewers.*

“Books – the best antidote against the marsh-gas of boredom and vacuity.” – George Steiner

Dear Parents and Students,

SUBJECT: ONLINE WORLD BOOK AND COPYRIGHT DAY CELEBRATION – 2020

Greetings of the Day!

DPS Gandhidham feels this is the best time that the power of books should be leveraged to fight isolation, reinforce ties between us, and expand our horizons, while stimulating our minds and creativity.

On the occasion of **World Book Day**, a global celebration of books, authors and reading, DPS Gandhidham feels happy to invite the bookworms to share a video revealing their reflections on the most influential/ loved book they have ever read or are now reading.

We request the readers to take a note of the following.

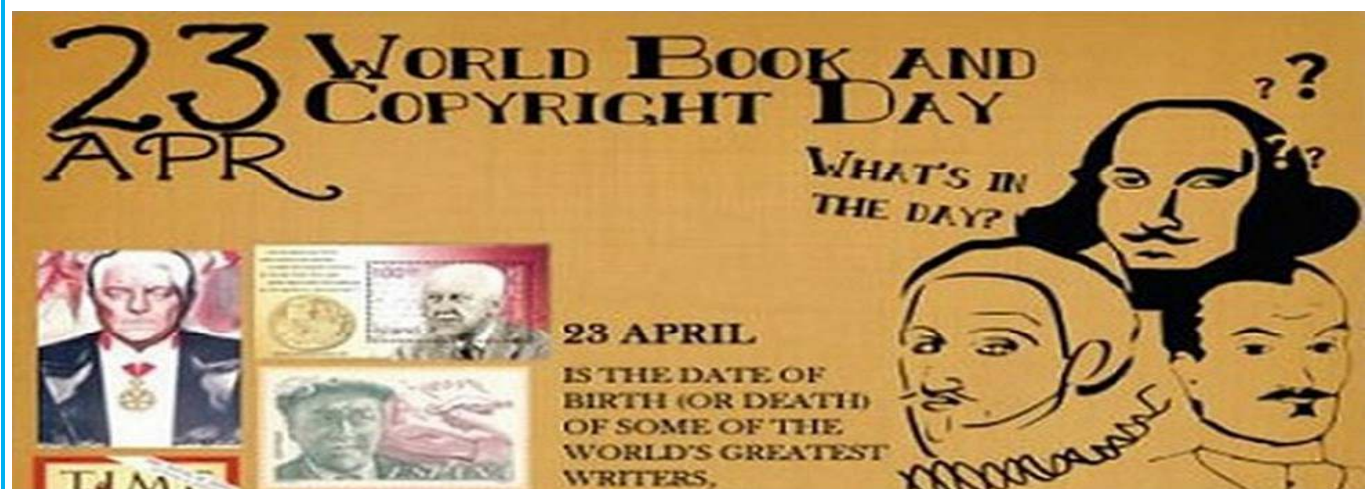

- 1) The video must not exceed 1 minute.
- 2) The video should be taken at home
- 3) Ensure noise disturbance to the minimum
- 4) The deadline is **25/04/2020 (Saturday) before 5:00 pm**
- 5) The taken videos should be sent through WhatsApp to **8980033923**
- 6) This is not a competition but a celebration and is optional.
- 7) All the received videos are compiled and sent in the school's WhatsApp groups

Let us celebrate READING to open ourselves to others despite distance, travel, thank to imagination and curb loneliness.

STAY HOME, STAY SAFE, START READING! START RELISHING!

With best wishes,

"The ultimate value of life depends upon awareness and the power of contemplation rather than upon mere survival"

CLASS/ SECTION: XII EINSTEIN

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

- To work respectfully and collaboratively with colleagues and community to ensure quality instructional programme.
- To know content and critically evaluate it for effective practice.
- To give us unique insights into the child's thinking preferences.
- To enable us to fill the gaps of learning during the lockdown phase.
- To improve the level of creativity and become a resilient leader in turbulent times.
- To learn from each other's experiences and perspectives, to manage virtual teaching and learning

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Lockdown has come as an opportunity to revisit my old hobbies which due to various reasons got banished to the corner. It has been a transition phase from my traditional face to face class room role to the wider more complex role that requires blended learning – VIRTUAL TEACHING. This turned to be a phase to unlearn, relearn and test my capabilities and value system. It seems I have been called upon to act, adapt and rethink how I manage myself and others. As an educator I have always focused on Intelligent quotient, but the lockdown phase forced me to realize the upper hand of emotional quotient that can help individuals to communicate better, reduce their anxiety and stress, defuse conflicts, improve relationships, empathize with others, and effectively overcome life's challenges.

NEW FIELDS OF EXPLORATION:

Covid-19 panic has given way to acceptance, rationalization and sublimating all coping mechanism. The current situation provided an opportunity to think out of the box about how our education system can best deliver quality learning opportunities for our children to survive and thrive in today's rapidly changing and uncertain world. Teaching in this atmosphere has proven to be extremely challenging. Most of us have had to adapt to technology that we weren't familiar with, overnight. While there is no dearth of apps and tools that can aid learning at this time, my focus has been on keeping things simple. Pre recorded video lessons, PowerPoint presentations, live classes, online quizzes, whatsapp conference and so on were undertaken to keep myself as well as my students engaged during these tough times.

I realized that adaptive learning is one of the techniques for providing personalized learning experiences , to enable effective and tailored learning paths to engage students and address their individual needs. Infact the lockdown forced me to try hands on various Edu- apps, that turned to be a big learning and opened my eyes for 21st century teaching learning. Virtual learning enabled me to remotely cater the needs of my students.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO

YOU:

When our school reopens, we need to focus not only on the academics but also on building 21st century skills, such as resilience, ability to cope with limited resources, flexibility and critical thinking.

In the given condition, where isolation is the only remedy to not get affected by the virus, ensuring the education of children has become a real challenge. Immediate measures are essential to ensure continuity of learning in schools. Schools should reopen in a graded manner. We need to develop such systems that has ability to create and consistently follow effective health and safety measures to mitigate the risk of infection. Schools with unused classroom space and enough classroom aides could stagger schedules, space desks at least few feet apart, and facilitate more but smaller classes. Students of higher classes could be given an option for remote learning or in-class learning.

School infrastructure can facilitate both physical distancing and hygiene protocols. Students need to be trained to fight with the virus without disturbing their daily routine. Canteen should be closed and we should motivate our students to enjoy their meal during recess, in isolation. Consistently wearing masks might also be difficult, if not impossible, to enforce among students. However, frequent scheduled hand washing and sanitation can help keep the environment and hands relatively clean. Enhanced cleaning of surfaces after the school day can be another vital element of promoting hygiene.

We need to continue to offer some level of remote learning, even after most students are back in the classroom.

YOUR MESSAGE TO THE SOCIETY:

“LIVE AND HELP LIVE”, is the need of the hour, I feel, for everybody in a Society to focus on improving Emotional Quotient. Under the label of 'Being Practical' day by day, people are becoming self centred. Emotions are seen subliming, changing directly to

vapour without first melting. In the Rat Race of running after riches, career, status, academics, recognition we have lost humanity, cooperation, coordination, affection, neighborhood, brotherhood. Let's treat each other with the respect and love we deserve, see the beautiful souls beyond the face. Thus BUILD a Healthy Society. We all should hope that one day this time will be relegated to the pages of history, when we will say – We lived it, coped with it and yes we overcame.

'It is during our darkest moments, that we must focus to see the light.' - Aristotle

WEBINAR-TIPS OF EFFECTIVE ONLINE CLASSES

1. **CUT DOWN ON TIME:** If you take 1 hour for a lesson in a regular class, cut it down to 20 minutes by highlighting important points
2. **STICK TO RECORDED VIDEO:** Online conference based classes can lead to chaotic confusion and many students come up with questions at a time.
3. **PROVIDE THEM LINKS**
4. **TAKE ONLINE QUIZZES**
5. **GIVE ATTENTION TO WEAK STUDENTS**

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

I personally believe in traditional classroom where teaching is a learning process and learning is a process to produce knowledge and skills. The distinctive pleasure of teaching in a classroom comes from the students who shape the art of teaching. The two way process of teaching learning is now in hands of network and the home situations of students. My students are seen as dots on computer screens. The teacher in me becomes helpless to assess my student's progress in this online teaching platform. Many big technical applications offer online test or online content but none of them offer a clear cut solution of 100% genuine assessment. Though as a person I could productively use this lockdown period but as a teacher I am counting days. When I can meet my students as soon as possible to impart education or knowledge for the development of their skills.

NEW FIELDS OF EXPLORATION:

As everyone feels the maximum area of exploration is in the field of technology. I could religiously spend time in self motivation and learning process as a whole. The day 1 of lockdown onwards I set my targets to achieve various goals and could successfully do it. I have created my on YouTube channel where my students can use it as a learning platform. So many applications such as Google classroom, live board, zoom, clap chat etc where used for the first time during this period.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

As of now it is clear that the COVID 19 pandemic will definitely slow down all fields except for few such as BIGTECH companies. Everyone must train themselves to face whatever may come. The challenges in the field of education primarily include, Poor infrastructure of institutions to maintain social distancing since no one can clearly determine how long the PANDEMIC is going to remain as it is spread in the world. Many institutions may use this pandemic to hide their own draw backs and pretend by providing online virtual platforms just for the sake of collecting the fees. One cannot forget the fact that

'managerialism' act as the barrier in education where the management who in turn do not have education background try to guide the education system as they feel this is the right time to earn.

Parents must understand the real efforts taken by the school for their kids and must cooperate with the teachers. The parents have same role as the teacher to ensure that their ward do not misuse the freedom given in the form of online platforms. The school must guide the parents time to time as they are the real **GUIDE** and **CONNECTING LINK** between the student's progress and teacher's hard work.

YOUR MESSAGE TO THE SOCIETY:

I would like to stress on one of the great messages that the World Health Organization keeps discussing. "The main part of preparedness to face these events is that we need as human beings to realize that we're all in this together, that what affects one person anywhere affects everyone everywhere, that we are therefore inevitably part of a species, and we need to think in that way rather than about divisions of race and ethnicity, economic status, and all the rest of It"

We will face everything. Our world has overcome many such situations. If a vaccine is discovered the PANDEMIC will just remain as a history like World War I and II

INSIGHT- LEARNING OUTCOMES OF ONLINE WORKSHOPS:

Honestly confessing, the lockdown has given me a bit of room to brighten the professional skills. I happened to learn some best-practised methods and techniques like 'Penmanship Approach' and 'Genre Approach' in teaching writing skills through online workshop held by CBSE.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

I am able to see a change in me. Before the lockdown, I was a teacher who did not attach much importance to the Imagination Technique and Analytical Technique to remember a lesson completely and correctly. Now I realised the special significance of them (as there is no physical presence of the taught) and started including them in the teaching. They seem to be effectively working out! I also did not consider the need of providing pictorial vocabulary in connection with a literary piece as I had been able to clearly explain them. The B-side of me during the lockdown is that I am not able to effectively derive and check the students' work from time to time. (I need to devise more effective ways to achieve the goal. And I am on it.)

NEW FIELDS OF EXPLORATION :

Beyond a shadow of a doubt, the lockdown has made a traditional teacher a digital one. I am no exception. To get connected with the students, I learnt using digital platforms such as – Google

Classroom, Live Board, Google Meet, Zoom, Jam board etc. I am now able to offer e-teaching which was once not even though of.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

In my view, "Course Correct" and "Meeting the Students' Emotional and Psychological needs" will be the most important post-pandemic challenges a teacher confronts. "Increased Patience" and "Increased Understanding" can be the best humanly possible solution to the challenges. A teacher needs to understand that the student must have suffered a different sort of turmoil in the mind (from that of a teacher/ an adult) and that he should be treated accordingly.

YOUR MESSAGE TO THE SOCIETY (About 50 words):

It is my robust conviction that almost everyone does agree with me if I say that 'this forced confinement' is unique and had never been experienced. In this most trying time in our life, I also believe that we have the resilience to overcome this 'Corona Combat' successfully as the tough times are always short-lived. **JUST SMILE AND SAY 'THANK YOU' TO GOD AS SOON AS YOU GET UP IN THE MORNING FOR BEING ALIVE.**

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

Online Workshops first of all moved us towards a new world of technology in education. We were able to know and analyse how to go with e – learning process and make it more interesting for the students. It even helped in generating innovative thoughts to connect the present scenario with education and how to overcome this situation. It taught how to get the work done from students as we are unable to have contact with them on regular basis.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN :

I learnt to face the situation without getting panic and try to find out solution instead of getting irritated. I came closer to my students as I used to call them regularly for studies and they were becoming more responsible and confident. I became more techno savvy and used the technology at its best .

NEW FIELDS OF EXPLORATION:

Learnt to do research and deep study of the content and material which was helpful for the growth of knowledge. Was able to explore more websites for the content to be explained in detail to the students.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

How to make the situation normal for students and make them comfortable and to get back interest in studies. If we talk about solution then we must take those chapters in the syllabus which are carried

forward in next class and have continuity. Plus we can have integrated learning and skill formation education which may help the students in future..

YOUR MESSAGE TO THE SOCIETY:

School is always been a integral part of the society. In society we must bring awareness about the pandemics instead of spreading rumours. We must always be positive and find the solution to the present problem and must have faith in one another and should work in team instead being isolated.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

Learning is an ongoing process of human development, we are continuously learning through formal and informal education, In the Virus era life has changed in terms of mode of learning, we are gaining information and knowledge with the help of modern technology.

Workshop – OXFORD (ENGLISH)

This workshop has opened up wide opportunity of new techniques of teaching, and how to implement teaching in depth and getting through to the students. It connected many teachers of different schools to share their ideas and opinion about the E - Learning.

Workshop – GOOGLE FORM (OLYMPIAD)

This helped me discover completely new way of teaching and evaluating students. IT expert Mr. Harsh demonstrated intricate details of how to prepare question paper online and to execute that till the final stage. This experience was exhilarating and very effective.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

I have always projected right attitude at right place , saying that I would like to think and thank this time and opportunity of lockdown to be a blessing in disguise, It has been an extra ordinary journey to self discovery as a teacher and push myself to implement and transform things which was beyond my imagination. I have connected more with my students asking about their wellbeing, speaking with parents in need of advice or in confusion. Teacher in me had always been there before or now but learning to adapt with technological development and update myself had been tremendously self-satiating.

NEW FIELDS OF EXPLORATION:

Time and health never waits: I have always been an active person. This period has opened up new opportunities for me to develop and explore few areas such as taking out time for health and self-reflection. I have started doing yoga and meditation more. Baking has been very therapeutic and brought

more love in my family. Reading different books and watching lot of documentaries has been eye opening, but most interestingly I have been learning body language and its secret code.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

I think the world will take time to recover from what we are going through. Mostly I feel bad for the families who had lost their loved ones. I empathize with the day-to-day workers and the underprivileged people. Its not just Covid-19 that has taken a toll on the society but the Amphan storm has been devastating in other states and with the outburst of locust and destruction of the summer and winter crops has been tragic.

Solution: We need to be patient and helpful and supportive towards each other, we should adhere by the rules and not bring any more problem.

YOUR MESSAGE TO THE SOCIETY :

Where there is a Will, There is a Way .

Its not the first time or will not be the last time to face challenges and struggle towards overcoming it. Struggles make us stronger hence we need to have perseverance and show kindness. Strength and unity will help us thrive and rise again. We must not forget who we are and where we have come from, we need to respect Mother Nature and be humble in our living. Let's wish well for each other and believe "We Shall Overcome".

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS :

The aim of the workshop is to determine the impact on learning outcomes of Teachers who participated in the blended learning course, focusing specifically on skill-based courses. These learning Workshops are used for interactive activities as suggestions for teachers to design and implement learning activities for learning courses.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before lockdown as a teacher, I was used to use the stationary items like pen, pencil, white board, marker, smart board etc. Now in this lockdown during pandemic COVID-19, I have learnt a lot, a new system of E-teaching by using digital platform. Teachers are the next level of COVID warriors, fighting for the nation and shaping the future of tomorrow. As a teacher today, this difficult situation has taught me to unlearn a lot of things and learn some more.

NEW FIELDS OF EXPLORATION:

This is the time we can explore ourselves in many new fields. We can improve our Skills. The more we read, the more things we will know. We have to learn how to make maximum utilization of digital platform

in minimum time. To maintain social distance and sanitization, We have to learn new systems like E-payment and use lift and stairs, railing in the building accordingly.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Most important: Do not panic. While the outbreak is a serious public health concern, the majority of those who come in contact with the coronavirus do not become seriously ill, and only a small percentage of patients require intensive care. Keep your hands clean, and keep distance from sick people. Wash your hands. Stock up on home supplies, medicine and resources.

YOUR MESSAGE TO THE SOCIETY:

If you have life, you have the World. We can achieve each and every goal if we are alive. Think Positive, Be Happy!! Everything will be great and the life will be so enthusiastic and back to normal again. So, Stay Home, Stay Safe.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

I have attended 2-3 online workshops. Talking about Oxford one, they gave us knowledge about different icons given in the textbook. The book which we have selected this year is New Pathways and it is very good book. They have included all the minute things which can attract the attention of the students of this generation. As we all know that this is digital world, they have tried to link their book with it and many things are digitally connected in it like Digital Resources, Oxford Educate for Students as well as the Teachers etc. One meeting was held with all the Nation Builders of our school with our Honorable Director Sir. I learnt how to prepare a question paper in Google drive. According to me, this was the most fruitful meeting.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN :

Before lockdown, I had not even thought about Teaching through What's app. That medium was used only for resolving the doubts of the parents. During this period, I understood that it can be very effective medium for Teaching also. Today even a child of 4 is familiar with Mobile. The students are very excited to learn through videos. They can understand it better. So I think that we must accept the changes in our teaching methodologies and follow it. I am not a person who knows much about technology but now I will try to update my knowledge on a regular basis.

NEW FIELDS OF EXPLORATION :

I tried my hands on cooking. My 10 years old daughter kept on telling me to prepare some different dishes but as I was busy, I could not find time for it. But this is the best period when I tried to prepare some dishes for which I took inspiration from Facebook. It was a nice experience. I would try to continue it. Another thing which I did is to spare some time for myself. It was best time. I watched online series. I

even started doing Yogas mainly Breathing exercise. I also attended A 21 Days Meditation Programme through Whatsapp. It was a different and memorable experience.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU :

The main and most challenging thing will be to stay fit and healthy. We can keep half an hour Yoga period in the class itself in which the students will do some exercises and understand the importance of it. After the lockdown when the schools will open, to convince the parents to send their wards to school will be a challenge. For it, we should invite them to school and show them what kind of pre-cautions will be taken. We need to assure them that we will take care of their children and the strength of the students in a class should be less.

MESSAGE TO THE SOCIETY :

Everyone must understand that all of us are sailing in the same boat. The situation is much more difficult for poor people. We should try to be helpful to them. We must show sympathy not only to the human beings but to the animals also. We must not be harsh with the persons working for us or under us and try to help and understand them.

The most important thing is To Maintain Social Distance and Wearing Mask when we go out.

Before Lockdown the traditional way of teaching and learning was a trained method for me as well as a convenient way of teaching but during lockdown the e-learning, which is the most prevailing method of teaching- learning in western countries, was a task for me but as a teacher I learnt and still I am learning. It is true to say “A Learning curve is essential to growth”.

NEW FIELDS OF EXPLORATION:

I learnt to make the teaching concepts in PDFs, Videos and even audio clips, to make Google form for tests and assessments, to teach through Google Classroom and various other platforms. To make use of various applications. Online Meetings were totally new experience.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Challenges which schools may face are

- Social distancing, in the classroom, playground or in the canteen during recess will be a risk.
- Individual urinals and water facilities can't be provided.
- Teachers will have to repeat the content to different groups of children as particular no. of children will be called on random basis.

Solutions

- Only main subjects can be scheduled so that less social interaction takes place and students can be sent back in short period.
- Support staff can be made available near urinals to keep check on sanitization of every individual. And the Washrooms have to be cleaned/sanitized frequently.
- Syllabus has to be reduced. Learning material can be provided through E-learning sources.

YOUR MESSAGE TO THE SOCIETY :

We are witnessing that period of time, where we are growing powerful day by day due to technological advancement but at the same time we cannot deny that we are facing natural and manmade complications. THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

“Teachers are the next level of COVID warriors, fighting for the nation and shaping the future of tomorrow,”

Before and during Lockdown life is totally changed for everyone. I learnt so many things and still learning. “As a teacher today, this difficult situation has taught me to unlearn a lot of things and learn some more.” I think that when a teacher meets a student physically, a connection is established and it becomes possible to deal with or clarify any situation immediately. In online classes, however, somewhere, the connection gets lost. But I also believes that over a period of time, a teacher has to build that connection with the content delivery and also the way she interacts with the student. “Keeping ourselves and the students engaged has become the priority since the lockdown, and virtual classes have proved to be helpful in these difficult times. This powerful medium has diversified the field of teaching.” Earlier, teachers were not so familiar with online teaching at the school level, except for the computer teachers. Now, along with teachers, every profession has chosen the virtual platform, providing precious opportunities to both students as well as teachers.

NEW FIELDS OF EXPLORATION:

A teacher has a very diverse role within the educational environment. In the classroom she must be an instructor, critic, disciplinarian, motivator, role model and adviser. However, a teacher's job can expand to include other roles outside the classroom.

Teacher as a Counselor:-As teachers interact on a daily basis with students, they may be the first to recognize a student's problem.

Teacher as a Tutor:-After-school tutoring increases the likelihood that the students will succeed and also increases a teacher's class pass rate.

As a new technology learner:-Always ready to learn new technologies as future is based on it only.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

In this pandemic all over the world all are facing challenges every day. All are in hidden fear of their future. Many lost their loved ones many their jobs. Many are in anxiety, fear, depression, sad, hopeless because the whole world is facing financial crisis. So in this critical condition we all must not lose the ray of hope. We must think for our future because we can't change our past and can't sit with that also. As our prime minister says "Atamanirbhar banoo" we also think positive and stand against this situation with full of our strength. We should always encourage Desi product and purchase them to make our economy stronger and stronger.

The pandemic Covid-19 has reinforced the links between health, environment and the economy. Infrastructure investments are an effective way to boost economic activity and create jobs like: renewable energy, electrification and adoption of public transport to reduce traffic congestion and air pollution. More investment in education and health as hygiene is the most important weapon to fight with the virus. We should Encourage long-term change in behavior. The current crisis has changed patterns of consumption. Electricity usage patterns have shifted as people are working from home on more flexible schedules. Non-essential purchases have temporarily ceased. All these offer an opportunity for implementing demand-side solutions to drive long-term behavior changes for more sustainable development. Encourage new technologies that can help support future response as it gives greater employment in the future.

YOUR MESSAGE TO THE SOCIETY:

I strongly recommend to be positive in every situation of life. Yes, no doubt that life takes lots of exam every day but if we fear to face them we cannot come up with any solution. I think these are the few steps helpful for you-

Meditate: Meditate every day. After that, do an hour of self-study to enhance happiness, love, and loving thoughts. Avoid those content that create emotional disturbance in us.

Power of one-minute: Create a habit for physical fitness. Be silent for one minute every hour; it's a sort of traffic control of the mind. Observe your thoughts, wherever you are. It's essential to pause and check your thought process so that you can come back feeling energized.

You are what you eat. Check what you are eating and try not to be stressful while taking your meals: no business meetings, no arguments... just talk, smile and be happy. If you are angry while eating, the food turns toxic.

Sleep well: Before sleeping, slow down your thoughts. The last information before you sleep should be calming. Detach and disengage from technology. Tired minds cannot be creative and intuitive. Hence, it becomes difficult to engage with people at work the next day. Well begun is half done. It will have a ripple effect throughout the year.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

Insight was a commendable experience sitting at home and attending workshops online. These workshops were great not only in respect of its contents but even the personality and the aura of the host had so much to teach us. One could notice the enthusiasm and passion with which they taught. The personality of the host was so captivating that they kept the students engrossed in their lecture throughout for one hour: by asking questions in between, by showing slides, inviting opinions of the learners and by making the delivery as well as the contents very easy and interesting to understand.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

The teacher inside me underwent a transformation from face to face teaching to virtual teaching and learning as well. I was never a tech savvy person; rather I was new to PPT as well as to word documents. In this lockdown, I started learning computers – a world of tomorrow with new things exploring every day. Teachers were ingrained with a new spirit to teach one’s biological children as well as the children whose ambitions rest on our shoulders.

NEW FIELDS OF EXPLORATION:

Goggle meet, Google classroom, Zoom, forms everything was new to maximum of us. We might have heard those apps but were never acquainted with the system of its operation and sometimes these apps become difficult to understand unless and until someone guides us for the same. Collaborative working was witnessed at its peak. The tireless efforts of the high authority and its learned team was remarkable, who made sure that every teacher learn this new system of teaching. The staff works efficiently if there is someone to guide and lead them and DPS, Gandhidham had an exceptional experience with Mr. Subodh Thapliyal as Director who mentored and left no stone unturned to take education to every child from lower to higher grades. Various competitions were organized, Olympiads were also organised on its scheduled dates. The efforts to keep the students busy and occupied played a differential role in this colossal scenario.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

There’s not even one section in the society which is not facing challenges these days. Challenges are such which have never been heard of or thought of by mankind. Racial Discrimination is showing its new colours in USA. Even the education sector is facing numerous challenges. The ministries are drafting policies, rules and regulations for Post Covid period. But new problems keep arising with every solution they find. Computers, lap-tops, smart phones, internet connectivity is not available with everyone in the country. There is wider section of the country in the rural and urban areas who cannot

afford them. If they have more than one child, it becomes equally difficult to buy new smart phone for other children. If the children are called to school, they are too small to understand that they have to maintain social distancing at every step. Sustainable Development goals adopted by the United nations which lay down Global Goals to be achieved by 2030 have further been postponed due to this pandemic. This outbreak has put one year of children at a great risk. In this time period, the teachers have to play a pivotal role by teaching online and taking care that no student is left out. They can make calls may be 5 children a day to take up their problems. Even the parents, who are well educated, can share the hands with teachers. They can adopt 2 students and take responsibility of their problems.

YOUR MESSAGE TO THE SOCIETY:

The pandemic has taught the mankind lessons for lifetime and which will be passed to the generations to come. The pandemic has confined every person; business tycoons or celebrities in their houses. This catastrophe is bound to bring changes in the lifestyle of people.

We have learnt that human beings are not the only ones who own this planet; we share this planet with other living beings. We must learn to co-exist peacefully with all living creatures on this earth: only planet with life. We have seen so much devastation globally that we must learn now that we must buy and spend for what is required. People are dying out of hunger, 30 crores have lost their jobs, and economy has been withered. If now we don't change then nothing can bring a change.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

I have so far attended 7 workshops in these lockdown days. I had the best experience in the workshop "Journey towards Entrepreneurship". The speaker has inspired us so much that I clearly remember his words, "Don't limit yourself in size 16, think about size 17." The words have changed my mind set and started accepting changes in life. Through another webinar on "Benefits of Google suit", I learnt more features of 'Google Suit'.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN :

Apart from learning professional related things to grow as a better teacher in school post-lockdown, I also became a better teacher at home. Because I strongly believe in "A teacher can make a change even at her house as well." I motivated my mother and made her learn how to operate a smart phone.

NEW FIELDS OF EXPLORATION: I explored new platforms and methods to improve my speaking skills and how to conduct workshops. I feel the post-covid period will be very crucial for both the students and the teachers. There will obvious changes in the behaviour of the children which becomes a great challenge for the teachers. So we teachers must be ready for the behavioural challenges. As a class teacher of Class II Pearl I have a first-hand information about the outcry of the parents in handling their children at home all day.

For teachers, syllabus completion will be a major challenge. Hence, it is always a better idea to have trimmed syllabus including all the essentials and make the students thorough in it. The teachers should also make sure that the students should have less written work as they would already have done much.

YOUR MESSAGE TO THE SOCIETY:

I hope my words would be comprehended in the right spirit. I have a firm faith that we belong to one family i.e. HUMAN FAMILY. When there is a problem in a family all the members of the family stand together to tide over the impediment. This mirrors togetherness and shows bonding. I take the opportunity to request the parents to support the teachers in all ways in this crisis. It is also equi-important to take a note that the teachers should support the parents. NEW FIELDS OF EXPLORATION:

During lock down online classes I tried to upload lots of videos on different topics. I tried my hands on many apps of teaching & learning like Tween Craft, Kinemaster, black board & Xscreen recorder. I also used the E book techniques in my lesson plans. Puppetry, art & craft based activities were the various fields used by me.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Post COVID Challenges

- *Safety & Security of Everyone
- *Social Distancing Challenges (lack of proper spacing)
- *Stress of Completing the syllabus already made
- *Poor attendance of children
- *Convincing Parents about the safety of the students
- Solutions:
- *Thorough Sanitisation of School Premises & Surroundings
- *Modification of syllabus
- *Leniency in attendance of students
- *Internal assessment rubrics to change
- *Practical based subjects to replan
- *Project work to be given more stress.

MESSAGE TO THE SOCIETY:

My message to Society during this difficult situation is Stay Indoors & Stay Safe. We have to be patient as this difficult time will also pass gradually & Life would be back to normal again. The crowds in shops & malls, the noise in the park & the bells of temples & most wonderful sound of laughter & play in school will soon resume. Keep hope in the Almighty to bring back all to Normal Daily Routine forever. Meanwhile I will also suggest society to make the proper use of this free time as we are at we can experience more quality & quantity time with our family. THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before lockdown I used to be a normal teacher taking class using chalk, board and smart board. Used to interact with students face to face. Check their daily work , being a teacher I used to maintain discipline in classroom, management of time, seeing that the work is going as per the planning.

NEW FIELDS OF EXPLORATION:

Now I have explored a lot . Earlier I have never taken classes online that is through WhatsApps .I used to send videos along with small and effective worksheet related to particular topic of mathematics. Earlier I was not habitual of searching too much on a Google or YouTube but by using online teaching learning I found myself familiar to this.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

The post Covid challenges according to me is that people will be afraid to send their kids to school and even it takes a time to bring back students to their regular schedule. We are going to face problem related to completion of syllabus. We have to change all the co- curricular activities. We can solve our problems related to completion of syllabus by removing some of the chapters which is not so much important to them. Again this will also be a big challenge for us to set the new syllabus.

MESSAGE TO THE SOCIETY:

I just want to tell our society that don't panic just have faith and trust in almighty everything will be normal very soon. We must follow all the safety and precaution measures being issued by the government. We must maintain social distancing, must wash our hand properly at a regular interval of time. Use face mask to cover our nose and mouth so that virus don't infect us. May God bless us .

An idle mind is devil's workshop

Team DPS managed to be there in the life of their students to make them active even during this crucial period. This has provided students sense of connectivity to their learning environment in spite of physiological disconnectivity. Technology has been and is going to be the important part of our life; occurrence of COVID pandemic has proven this. Today we are required to use e-learning tools. Since

teachers and students are working on it for the first time it was a difficult process but gradually it is becoming easy and comfortable.

However, like most new technology, e-learning still has its drawbacks. Wider access can also mean less control and potential technology issues. Here are some of the pros and cons of adopting e-learning for our organisation's training and development needs.

Pros:

Access. Perhaps the most valuable benefit of e-learning is that it provides access to a wider audience. Through cloud computing and the Internet, companies can offer training tools to employees anytime, anywhere. This benefits large, multinational corporations with employees in every continent because now there's a way to offer them all the same training, translated if necessary, and in their own time zones. Even if the organisation is in only one time zone, the benefit of access through e-learning can change the way employees are trained and the way employers manage their progress.

Ease of use. Given how much the average person uses technology on a daily basis, and based on our familiarity with software applications, e-learning's ease of use can be a big benefit. By choosing a user-friendly platform, organization can count on their students being able to navigate their way around and learn how to use it quickly. Of course, not every e-learning platform is user-friendly and not every students is tech-savvy, but generally organizations can reap the benefits of having a tech teaching tool that most students will feel comfortable using.

Tailoring. In terms of access, cost, function, and pretty much anything else you can think of, e-learning can be tailored to our business needs. Whether we need training for five students or five thousand, e-learning tools can be customized to what works best for our organisation. They can also be tailored to our students' needs. If students feel like they know certain topics very well, they can skim over them and waste less time. That way they can concentrate on the topics they need to really work on. Students also get to learn at their own pace, which is advantageous, considering that most of them are balancing multiple tasks, workloads, and deadlines (assignment submission, practical submission) .

CONS:

One size doesn't fit all. One of the main disadvantages of e-learning is that it doesn't appeal to all learning styles. While most people appreciate the freedom and flexibility that e-learning provides, many prefer the traditional classroom method to learning on a computer. Some people might prefer to learn through a hands-on approach and may find e-learning a little too much like going through the motions, instead of applying the lessons to real-life scenarios.

Isolation. Learning through the Internet on individual computers allows for wider access, but it can also easily lead to isolation. Learning face-to-face means students can ask questions and have them answered right away, which is not the case with e-learning. Students have the freedom to learn on their own time wherever they are, but this may leave them with a feeling of isolation and lack of support. The lack of a physical classroom and instructor can be frustrating and demotivating.

Tech issues. Although most of us are comfortable navigating the Internet and the computer world, not everyone is as tech-savvy. These students may find the concept and/or execution of e-learning difficult to grasp. Even if the e-learning software is user-friendly, the idea of using it may be daunting to some, especially students who don't have to use computers regularly on their jobs. Other potential tech issues can include a slow Internet connection, specific browser requirements, and poor device compatibility.

Lack of control. Through e-learning, teachers are giving control to the students to learn in their own time and in their own way. Since students can use e-learning tools at their own pace, there's a risk some may fall behind or just go through the material without really paying attention. This lack of control over the learning process can lead some to be weary of using e-learning for training purposes.

When strategically and properly implemented, e-learning has the potential to make the e-learning process as engaging and interactive as possible

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN :

TEACHERS ARE THE NEXT LEVEL OF COVID WARRIORS, FIGHTING FOR THE NATION AND SHAPING THE FUTURE OF TOMORROWRAGHAV POTDAR

Before lockdown the teacher in me was a very happy teacher to be able to connect with my students in real time. Being connected in real time was very advantageous providing both sides the environment to learn with the help of activities that we could conduct in the class. Every conversation was very effective I was able to understand and clear the doubts raised by students. Conduction of practical could enhance the understanding of the subject was teaching. So there was a feeling of great satisfaction regarding delivery of the knowledge through effective communication.

The teacher in me during this lockdown was a bit demotivated because when one meets a student physically, a connection is established and it becomes possible to deal with or clarify any situation immediately. In online classes, however, somewhere, the connection gets lost. But we also believe that over a period of time, a teacher has to build that connection with the content delivery and also the way he or she interacts with the student.

If the content is delivered in a proper manner, the student will not only be present but also participate actively during the sessions.

NEW FIELDS OF EXPLORATION :

Being a computer teacher I must mention Artificial Intelligence as the new field of exploration along with data science.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU :

In the last Mann ki Baat address on April 26, the prime minister had said that the new habits inculcated to fight corona virus, like wearing masks and public hygiene, will have to become part of our new reality and cautioned against complacency against the disease, which he said will impact everyone in the country sooner or later.

Challenges would be:

1. To monitor students/ staff's body temperature while entering the school.
2. Encouraging students to keep safe distance.
3. To encourage student remain absent for normal to sever fever as students will be attending school after so many days they will not desire to be absent.
4. Conduction of practical's and activities : as instruments touched once can be touched by others so frequent sanitization and cleaning would be required.

Probable Solutions

1. Students as well as staff members should be encouraged not to leave their current city at least for one year.
2. For activities one big hall equipped with loudspeaker can be arranged so that a single class can sit together following the safe distance guidelines to save the time .

YOUR MESSAGE TO THE SOCIETY : Let us be apart to do our parts. We shall be apart physically but not mentally. Let us understand each other and help each other. Let us work hard to build our Nation as truely Independent Nation.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS :

To be honest, this was my first online class. I am looking forward to attend more online classes. I have attended 2 meetings so far- Blooms Taxonomy in Mathematics and Multiple Intelligence. The experience of these classes has been nothing but positive. I thought the course was extremely helpful. I have to say this class made me more aware of dealing with how to teach hard topics of Mathematics. Also, I learnt how to make goggle quiz online through goggle drive.

Comparatively before lockdown it was much easier to teach students as one on one teaching took place where they can ask their doubts on the spot and we as teachers also can understand children in all. But during lockdown, the only challenge, and the biggest one for teachers, according to me, was that they were unable to see the reactions of the students. The need of the hour is for teachers to be passionate so that they can enjoy themselves while teaching online. I enjoy teaching during lockdown.

NEW FIELDS OF EXPLORATION:

I explored online sessions by highly knowledgeable faculties, learnt about how to deal when a child does not understand a particular topic online, learnt how to conduct online quiz in my subject, learnt how to evaluate, experienced new cooking recipes. As educators there is much more to learn and explore about online teaching but as we do that, we can ensure that learning continues.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

The pandemic has significantly disrupted the education. It has transformed the centuries-old, chalk-talk teaching model to one driven by technology. Around 50 per cent of the students, covered in the survey stated that they find it difficult to understand the subject without the classroom environment and teacher present. The home environment, being vastly different from formal classrooms, is often difficult to adjust to and make conducive for learning. I also feel post-Covid teaching-learning will be not as same as earlier. Solution is we should adopt every possible method to continue school teaching after pandemic but with leniency, as students and parents will be still scared and concerned about their ward.

MESSAGE TO THE SOCIETY:

Today I have a message for young people: you are not immortal. This virus could put you in hospital for weeks -- or even kill you, Even if you don't get sick, the choices you make about where you go could be the difference between life and death for someone else.

I had the privilege to attend several online workshops during the lockdown period and I am happy that these will help me to apply appropriate pedagogic techniques to make learning process connected with real life, stress-free and joyful. Furthermore it will help me to deal with the needs of the learners and the society effectively.

THE TEACHER IN ME – BEFORE AND DURING LOCKDOWN :

I have been a teacher for years now and to be very honest, resisted technology as a teaching aid in the earnest belief that the classroom is a space where teaching-learning happens face to face, and it

cannot and must not be replaced. However the current situation has forced me to recreate those spaces vital to functioning. I feel I have reinvented myself and I am happy to be a part of this radical transition in the field of education.

NEW FIELDS OF EXPLORATION :

It's a matter of pride for me to adapt and adopt the new way of teaching that the pandemic has thrust upon us. As an educator I believe there is much more to learn and explore about online teaching and I am charged with finding creative opportunities to ameliorate my teaching using new online teaching ideas, apps and tools.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO ME:

Post Covid, will be a new dawn. Change is inevitable. A shift in mindset would be required. There are plenty of strategies and tactics that will be used in the following days but most crucial of all emotional and psychological scaffolds would be needed to teach in the new paradigm so that it helps the learners in their journey to a better tomorrow.

MY MESSAGE TO THE SOCIETY:

None of us have ever experienced the type of global disaster we are now enduring. We need to understand that our modern world brings multiple threats that we ought to take seriously. Disasters can and will happen again. But the expertise needed to maintain this complex world should continue to be regenerated. We need to do that face-to-face when we can and online when we must.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

To overcome the effects of the pandemic, schools all around the globe are switching to online teaching and learning mode. The teachers are consistently working to adapt to an effective and imperative teaching through virtual classes.

For the better learning outcome students are being provided videos related to the topics and the questions are given based on that, the next day answers are provided and answers are being checked by parents for better outcomes. Randomly few roll numbers are selected so that work is checked by the teacher.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before the lockdown in classroom teaching, when I started teaching, there was a synchronized link between me and the children. Learning was also aided by gestures that helped to retain in long term memory and I got to know by looking at the students whether they were able to grasp the content or not

NEW FIELDS OF EXPLORATION:

In this pandemic situation, I have looked into other fields which have kept me engaged throughout. The field, I was unaware I am good at. Where I can surely say "Time is a good teacher". INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

During this pandemic I was lucky to attend three online workshops. On 9th May, 2020 I attended a webinar on Understanding Class room Management and its components, Resource person : Ms. Anupama Sharma It was a very helpful session for me where I learnt about 1) Everyday challenges the teacher faces – Student misbehavior, meeting the learning needs and attending large number of students. 2) How the effective classroom should be- Teach me the way I am, the role of the teacher is to educate, enable, engage and empower the students, about 4 pillars- to know(knowledge), to be(good home), to do, to live together(harmony) .3) To develop healthy student-teacher bond. 4) Always enter class with learning & teaching methodologies- Planning, Activities, Execution of plan and Evaluation of plan. 5) Talking should be 10% by teacher and 90% by student that means it should be an interactive class. 6) What is classroom management- the way teacher structures time space and sees that happy learning is taking place. 7) To know each and every child so that at the end of the day we can write a page about them as a teacher is a counselor as well. 8) There should be no gap between student, teacher, parent and all the stakeholders; it should be a transparent system.

On 9th May, 2020 I attended one more webinar on Multiple Intelligence, Resource person: Sh. Madan Sawhney It helped me to know about the eight intelligences by Howard Gardner where I learnt : 1)The lesson which we are teaching should be rich – like every child is able to apply at least one intelligence. 2) Bifurcate the students as per interpersonal (People Smart)- group projects and intrapersonal(Self Smart)- Individual, thinkers, philosopher. 3) Projects should be planned in such way that each and every child can participate- Nature smart (need to see students that are interested more in nature, Music smart (those who love music), Word smart (Linguistic – about languages), Number smart (logical), Picture smart (visual), Body smart (athlete – sports) 4) Projects should always be interdisciplinary which will help all the students those who are blessed with different intelligences.

On 10th May, 2020 I attended the webinar on Blooms Taxonomy in Mathematics, Resource person: Dr. AP Singh Chawla which taught me 1) Life is good for two things in Mathematics: Discovering Math and Teaching Math. 2) Taxonomy is mother of all Sciences(Low to high) 3)If we teach students in the way we have learnt unrealistic & mechanical way it becomes boring 4) We should always teach in creative manner- we should not give the formula to solve should teach how the formula is formed. If perimeter of rectangle = $2 \times (l+b)$, If we draw the diagram all explain that opposite sides are equal in rectangle so we can take 2 common and perimeter is sum of all sides so we add length and breadth, it will become more interesting. Even while solving word problems we should always draw diagram and give life skill based examples which students can relate. It will help them to understand well and will remember for long time. 4) Should always work on our third eye that is Pineal Gland (Higher order thinking skills). 5) Should frame questions using Blooms Taxonomy. 6) Learnt about revised Taxonomy- Remembering(Recalling), Understanding(Making sense), Applying(Using knowledge), Analysis(Breaking concepts to part), Evaluation(Giving decision), Creating(Putting information).

These 3 webinars helped me to enhance my skills. It was not for the first time I was attending workshops on these topics as my mentor **Dr. Subodh Thapliyal** in my two years of journey in Delhi Public School has already taught me about Classroom management, Multiple Intelligence and Blooms Taxonomy – how to implement them in our classrooms or rather Think Rooms. He really helped me to know about my inner capabilities and I got many opportunities to show my skills and he always showed faith in me and helped me to grow better day by day.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before Lockdown we used to enter our classrooms with our lesson plans, teaching strategies, used to have one to one class with the students, used to explain topic, solve their doubts on the spot and do evaluation. But after lockdown, conducting online teaching or virtual classes was a big question mark . How to conduct, what about the syllabus, will students understand the topic or not, what about evaluation? Our Director - Dr. Subodh Thapliyal, Head Mistress- Ms. Ritu Thapliyal and Harsh sir guided us through virtual meeting about conducting online teaching. As we have many resources – YouTube, Extra marks, different apps we can send content through videos, effective worksheets, answer key and can do evaluation by Random Sampling Method.

It made be more techno-savvy, I started searching more and more videos, made new lesson plans, effective worksheets that include examples and explanation as I was not physically present with students. Solving doubts by personally contacting students, conducting online DTHO, compiling its result

Affiliation No: 430090

School Code: 10080

and lastly it made the bond between students, teacher, parents stronger as parents helped me a lot by being co-operative all the time.

NEW FIELDS OF EXPLORATION :

New explorations were being techno-savvy, doing more research before sending any content, uploading Google form for test or Online DTTHO, compilation of results of DTTHO, through video calls solving of doubts, how we can conduct online competitions like Earth Day, DPS Art Competition (Lockdown and Me), Online World Book day and Copyright day celebration, Instrumental and Vocal Competition, Intra Class Dance Competition. Basically making the best use of technology, spending more and more time with family and trying my hands on cooking. I made a time table for my work, cooking, helping in household chores, learning something new, and watching television.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Maintaining social distancing among the students, new lesson plans, different road map of learning, syllabus completion, planning of co-curricular activities, exam-wise time table and syllabus.

Possible solution will be syllabus should be reduced. For the chapters which are covered through online classes, only doubts should be solved after school re-opens and of these chapters there should be class test rather than an exam. Students should be guided about how to live with corona virus without getting panic-stricken, wearing mask, maintaining distance, washing hands with the sanitizer time and again. More focus should be on content rather than syllabus completion- all the important topics should be covered. With the help of co-teacher new strategies and road map of learning should be planned.

MESSAGE TO THE SOCIETY:

We should learn to live with the virus and not get panicky. Should stay at home and should go out only if needed. While going out, should wear mask, maintain social distance, sanitize our hands time and again, Should avoid social gatherings, learn to help needy (Service before self). We should make children aware about corona virus and how the life style will change. To spend time with family and give more importance on work from home. We should help in household chores even children should be guided to clean their rooms by themselves, spend time in knowing oneself well. At least spend 1 hour by doing the thing one loves the most. Learn new things with online classes and remember everyone in our prayers.

great learning experience in such a challenging situation where everyone is in a perturbed state. These workshops channelized our thought process and gave us a feeling of achievement by exploring and implementing novel methodology of teaching.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

During the lockdown I was constantly in touch with my students answering their queries, encouraging and motivating them to spend their time constructively. The only difference was we missed the interaction with the students and colleagues. Before the lockdown, being in the class I was able to make a reasonable assessment of the subject being taught to the class. Students' response was not only a motivator but also helped me in course correction. Junior students need more one to one dialogue and encouragement which is not always possible in the E-learning process.

NEW FIELDS OF EXPLORATION:

Amid this lockdown I acquired knowledge in various fields. I became E-Teacher. Technology and gadgets became assets. I explored many apps to make E-teaching easy to understand for students. I attended E-Birthday Party of one of my friend. I tried to put my thoughts and imagination in form of a story. On the personal front I learned and tried many new recipes from YouTube.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Challenges bring Changes. Amid growing speculation over the reopening of schools as the lockdown is being eased in a restricted manner, the school, teachers and stakeholders have to shoulder great responsibility together for the future of the nation - students. As teacher is the mother of students in school. She has to be more cautious about health and hygiene of students. Teacher has to play the role of a counselor. She has to bring the students out of the fear and help them to cope with circumstances. She has to handle panicked parents as they are sending their bundle of love with dismay and anxiety. Teaching methodology will be changed. Application/Skill based topics should be given priority. Self reading, Soft Speaking, Silent writing and Sincere listening should be encouraged in school.

MESSAGE TO THE SOCIETY :

Let's us resolve not to abuse nature but to try and conserve. Let's spend on living style rather than life style. Let's try to spend quality time with the family rather than spending time and energy for their materialistic needs. Practice the motto given by Mahatma Gandhi ji : 'Simple Living and high Thinking'

Life can be hard. It might not be perfect, but that's normal. Once the pandemic runs its course, we should all attempt to embrace the stressors of day-to-day life as inevitable, appreciate what we have, and remember that things could be much, much worse. Nothing is permanent in this world, this time will also get over.

May all of you have a safe time and be at your creative best while spending days away from school. It's only a matter of time before we get together and relive the excitement of school life.

- “In spite of the availability of the content, its application, how to use it and deliver it to the students in the right manner was a real challenge.”
- When one meets a student physically, a connection is established and it becomes possible to deal with or clarify any situation immediately. In online classes, however, somewhere, the connection gets lost.
- The only challenge, and the biggest one for teachers, was that they were unable to see the reactions and smiles of the students.

NEW FIELDS OF EXPLORATION:

“Teaching in this atmosphere has proved to be extremely challenging. Most of us have had to adapt to technology that we weren’t familiar with, overnight. And as a result, the working hours have increased. Our phones never seem to stop buzzing.” Along with being the authority on their subjects, teachers have had to play technology trouble-shooters.

I have explored the world of online teaching, learnt about many teaching – learning apps like seesaw, zoom, Liveboard, Google hangout, Google meet, etc.

“While there is no dearth of apps and tools that can aid learning at this time, our focus has been on keeping things simple,” “Video lessons, PowerPoint presentations, live classes, online quizzes, and so on are undertaken to keep ourselves as well as our students engaged during these tough times.”

“All that brainstorming and research paid off so well that from nursery to the higher classes, everything went online within a matter of a few days.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU :

The teachers will not only focus on the academics but also on building 21st century skills, such as resilience, ability to cope with limited resources, flexibility and critical thinking.”

While some teachers still believe that the future of education is in the classrooms, some may hold a different opinion.

I believe that the pandemic has radically changed the concept of traditional education in the past few months and virtual learning will be the new future of education. Before the pandemic, technology was just considered as a means of entertainment.

There appears to be no dearth of online resources of academic value. And therefore, online teaching is more an opportunity than a challenge for teachers today. Teachers have to upgrade themselves according to the new normal that is online learning, or home schooling.

“Keeping ourselves and the students engaged has become the priority since the lockdown, and virtual classes have proved to be helpful in these difficult times. This powerful medium has diversified the field of teaching.”

“Earlier, teachers were not so familiar with online teaching at the school level, except for the computer lectures. Now, along with teachers, every profession has chosen the virtual platform, providing precious opportunities to both new learners and experts.”

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before lock down I could directly interact with students which made teaching not so difficult and would get to know them personally, their likes and dislikes, their characters, their skills and how good each student is in learning.

I don't feel as enthusiastic as I used to when I was physically present in a class. Understanding students is now more difficult.

NEW FIELDS OF EXPLORATION:

Getting handy with mobile phones and internet. Searching for new lessons to teach or searching for images and videos that resemble the topic is fun and I enjoy it a lot. A good thing that has happened to me during lock down is that I have become tech-savvy.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Facing Covid-19 is a challenge for us as it is a new illness we have come across, we all are frightened and don't know how to deal with it, so my solution to this is to create awareness and follow rules, orders and advice provided by the government.

YOUR MESSAGE TO THE SOCIETY:

Follow government advices, stay home, social distancing, wear mask and use sanitizers, avoid public meetings, if you find any person with Covid-19 symptoms inform health care providers.

Workshop on Bloom's taxonomy 'Multiple taxonomy'- Workshop promoted higher forms of thinking in education, such as analyzing and evaluating concepts, processes, procedures, and principles, rather than just remembering facts. The session also highlighted the importance of depth to which the knowledge is to be dispersed using Blooms taxonomy.

As a teacher I have to prepare much more and have constantly to write detailed lesson plans, scan and upload reading material. Before lockdown it was easy to make children understand and clear doubts there itself. It has become difficult to evaluate students one to one on the basis of concepts during lockdown. It has become challenging for students as well as for parents to learn online hence I keep on asking children over phone and provide lessons and clear doubts one on one over phone itself.

Teaching online has been both challenging and calming.

NEW FIELDS OF EXPLORATION:

Teaching in this atmosphere has proved to be extremely challenging. I had to adapt to technology that I was not familiar with, overnight keeping patience

Keeping balance in professional and personal work especially when your workplace is your home - helped me in understanding my own strength as how to manage everything at the same time.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Post COVID will be very challenging in terms of content taught during lockdown at the same time skills those were not taught virtually. Few of the students and parents are not comfortable with E – learning which may lead to learning gap. We need to encourage and remain little lenient in terms of assessment and focus more on learning rather than grades during assessments. Hence assessments can be project or assignment based.

As fear of COVID – 19 will be there in parents which will restrict them from sending their wards to school hence we must provide study material on line post COVID- 19.

YOUR MESSAGE TO THE SOCIETY:

The corona virus pandemic is a horrible visitation, but here are some things positive that may come out of all this hardship. Not only to survive but also to grow , we all need to commit ourselves to some sense of order and routine, and at the same time, surrender to the chaos by:

Understanding Our Strength

Extending A Hand To Those Who Need Help

Utilizing The Time Found

Practicing Random Acts of Kindness

Taking a Daily Inventory and keeping an attitude of gratitude.

From the experience of Emotional Intelligence Webinar. I understand the following:-

The Instructor's role is changing from the "Sage on the stage" to "the guide on the side" This point of view maintains that people actively construct new knowledge as they interact with their environment.

This is a student-centered approach in which students "co-create" their learning experience. This approach empowers students as active learners instead of just passive recipients absorbing information and reproducing it for standardized tests.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before the lockdown as a teacher used to teach in classroom using technologies like smart board , extra marks and other presentations including books and primitive green board teaching. All the doubts were resolved in the physical classroom itself. Only homework and other assignments were carried back home.

During lockdown the physical connection is lost and hence as a teacher I have started addressing students through WhatsApp and Google classroom. On this platform all notes and study materials are shared with the connected students Also I have recorded video lectures and provided it to students through YouTube platform where the students would comment out any doubts faced or any issue regarding the subject. Then on receiving the feedback I solve their problem by providing them pdf's on WhatsApp group/classroom or by correcting their submitted homework.

NEW FIELDS OF EXPLORATION:

New field which I have explored are online teaching methods and other editing tools which are required for designing appropriate study materials for students. Also I have explored videography domain for creating video lectures and uploading them on YouTube platform using YouTube studio and other video editing tools to make good quality , clear edge videos.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Due to the spread of novel Corona virus creating a global pandemic situation and lockdown across whole country only essential requirements were kept active and rest others were closed.

One possible solution to above problem was improving our supply chain and making it more safe for customers. By making the market area more open to local products and wide in range in terms of area and products , it would create opportunities for local brands as well as proper safe situation for industry

as people in market would have more options for particular things hence there would be no crowd accumulation at one place , avoiding bigger crowd certainly would prevent chain spread.

Now we need to understand that safety masks and other precautions are set to be a part of our life from now on and without it things won't change normally.

YOUR MESSAGE TO THE SOCIETY:

My message to the society is to be alert and be safe from the global pandemic. Covid-19 pandemic has provided us time for our loved ones. Spend time with family and always keep learning and improving. Try to build algorithms and keep yourself in the constant learning cycle.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN: I believe teacher

is a student forever, hence during the Lockdown I have learnt many new things especially in context of online teaching and learning process. Now I find myself little more techno friendly which is an added advantage for me as teacher. It has also increased my confidence.

NEW FIELDS OF EXPLORATION:

Observed following new in my life style:

- Come across on various economics, social, personal and professional issue and discussion through various mode
- COVID19 and Lockdown and present scenario made me more thoughtful for family society and nation and my responsibilities, care toward all of them.
- I have gone through various articles on Finance and Travelling
- I now have conversation with some of relatives and friends to whom I rarely talk.
- I spend good time with family and try to cook food sometime.
- I have adequate time talk to myself and to think over for better me.
- I have been spending some time in worship and religious activities

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

After removal of complete lockdown we'll have to maintain social distancing, because unaware people might be found less conscious towards it. There would more chances to spread the disease faster. Hence, we all would need to be more conscious and pro-active toward all the means and all the dealings and adhere to guidelines issued by the administration.

MESSAGE TO THE SOCIETY :

It is very easy to give birth to a child but a challenge to nurse, off course! Growing up is not only the right nursing because the biological processes naturally happen with all the living beings. So then happening with your child too but making a responsible citizen who can become a resource for the nation is not a easy task. INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

This pandemic has made all the educational schools across the world adopt teaching and learning online. I attended online workshop of Insight- English.

Learning outcomes were

1. Demonstrate and apply appropriate study skills.
2. Using variety of reading strategies to foster comprehension and to construct personally meaningful and culturally relevant connections to the text.
3. Employ a writing process and demonstrate the ability to write clear sentences and construct paragraphs and essays that effectively make use of supporting details, examples, and evidence.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before lockdown the concept of education was limited till school itself but this lockdown has taught that teaching-learning process can take place even when a teacher is not able to teach in front of students. Physical classes are not needed to render knowledge.

NEW FIELDS OF EXPLORATION:

New fields that have been explored by me during this lockdown are painting, drawing, reading and many more. All these activities were not possible with the daily routine. When we get time for ourselves, to grow and self evolve, we develop differently.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU :

There are surely going to be many challenges after covid. Syllabus , pattern of examination, conduction of physical classes in school, school hours, safety of children and staff as well. All these are major challenges that we all are going to face in the coming days. Solution for the same is ‘Pre-planning’. We should not be afraid of this pandemic instead we should prepare ourselves.

YOUR MESSAGE TO THE SOCIETY:

This Pandemic has proved that if one wants and wishes to learn something new then there is no such thing in whole universe that can stop him to do so. Now it's high time we should understand that this virus is a part of living for few coming years so we must prepare ourselves and our children to live, deal and to be able to survive with this situation by taking care of ourselves and of surrounding as well.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

Online workshops are a great way for trained professionals to share their knowledge. I have attended 2-3 online workshops during this lockdown. I have attended a meeting where we were taught how to prepare a Google format question paper. We all as a teacher are aware of using technology but we hardly come across the actual methods of preparing question papers and answer keys. This proved to be very beneficial to those who don't have very good hand with software and computers. Other meeting where we were enlightened with the latest needs to children for education was addressed by Oxford. They explained how they have taken care of students need and have created digital learning that is linked to the textbooks. These workshops are a boost to our enthusiasm to work and improve our learning and teaching methodology. Like students, teachers also have a bond and it is necessary for them as well to meet each other often. Thanks to online meetings and workshops that we learn together and teach together.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Covid-19 pandemic has sparked a global realization that our current way of life does not work. It has broken our perception of what is normal and deconstructed society and education inside out. Previously we used to think that only the education related to topics in books was necessary. But, this quarantine has taught us that world is beyond bookish knowledge.

Our little daisies are now facing problems which no textbook lesson or math formula can solve. They need help of experienced elders who will teach them how to survive with limited resources and adjust in harsh environment. We all are habituated of experiencing comforts and lovely lifestyle. And only now it comes to our realization that in this process we are somewhere distancing our self from our ground values and cultures.

NEW FIELDS OF EXPLORATION:

All the bright ideas come to you either when they are needed or when you create a storage for them. This quarantine gave me a little window to try myself doing different things which are not my cup of tea. I learnt to cook the basics, but finally I got a chance to level up my cooking skills preparing the delicacies which I only used to admire on internet. I also got time to rejuvenate myself taking care of my skin and hair (specially). I found back my obsession for music which was so joyful. I mostly gave my time to observe myself and my past lifestyle. I wanted to evaluate how much change had I developed in past years. I have always been a fan of writing but time and now it has somehow faded away. But now I got time to reinstate my hobby. I am nowhere near to a professional writer but it gives me pleasure and makes my mind think creatively.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO

YOU:

Once a disease is cured, there still remains chance for it to strike back. Around the environment of this rampant, it became very difficult to continue our daily life. Everything changed promptly. Our daily routine, our social encounters, our inner conscience itself has suffered a lot. It has become hard to make ourselves feel free and safe. The shortage of essentials have made us realize the true value of storing and minimal usage. As the scientist and doctors have stated the only way to be safe is to maintain social distance and stay at home. So it is for our safety that not only India but whole nation practices social distancing. Traveling is one of the many reasons that has increased this widespread disease. But we cannot keep people away from their homes, so best way is to make sure they are healthy and then only allow them to travel.

YOUR MESSAGE TO THE SOCIETY:

Worry is wasting today's time- Cluttering up tomorrow's opportunities, with yesterday's troubles.

Before the pandemic attack, our life was normal, simple and little challenging sometimes. But, now that we have to face a huge hurdle generated by nature in our daily schedule, we have become feeble and venerable. No good has ever come from making fake assumptions about having a bright future, rather we must aim in creating a brighter one. We may not have lavishing facilities and luxurious life but what we have accomplished so far fighting the enemy is what matters. The togetherness should be celebrated, the fight of our real heroes- doctors, policeman, sweepers and drain cleaners should be acknowledged and the recovery of many of our brothers and sisters should be felt grateful about. All the people who have contributed in making the life of poor easy, can only be thanked from the bottoms of our heart.

Lockdown has been like a blessing for me. I have learnt many things through the sessions conducted by Subodh Sir, learnt about the Zoom App, have become more innovative and creative in delivering lessons.

I have given quality time to my children, and as a person I have learnt to take things as they come and notto panic as there is a solution for every problem.

My Happiness Growth/Quotient and Mindfulness has definitely increased.

NEW FIELDS OF EXPLORATION:

I have become more Tech -Savvy, My Time Management Skills have definitely improved, Communication Skills - Continuous communication and the bond between my TEAM Members hasdefinitely strengthened and I have learnt to put up a bright smile inspite of the challenging situations. Solutions

These young children need a beautiful present to have a bright future as 90 percent of the brain develops during these first 5 years and we all are worried as parents and teachers that no children should fall sick. (Workshop on Assessing Virtual Classroom)

Sparing time during this pandemic has resulted me to get involved with various activities surrounding the technology.

One of the best Workshops attended on Virtual Classroom has brought out some learning outcomes.

1. To enable to know the technique to access the use of virtual classroom.
2. To enable and to understand the need of the students at that specific time and to come out with latest methods evolving strategies into Learning.
3. To know how to make it as a Resource for the child that develops the inner quality and skills through new way of Learning.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

Before the Pandemic broke down a teacher as usual is busy with it study materials and planning daily schedule was as a daily routine with acquainted stuff. It was all known about what to teach and how to gather materials to provide the best to students. A regular and planned way of teaching was experienced wherein different activities summoned up the teaching learning process creating an effective environment for students to enhance their skills.

During Lock Down:- (Learning By Involving Through Technology)

This lockdown period has brought a challenge in teachers life where it's a new learning for a teacher to get connected with children not only mentally but emotionally as well and make them aware that due course, time has changed and teaching has to be beyond the classroom . but learning and involving oneself into the technology has brought a new beginning in curriculum. Lock down period has definitely made teaching learning process enjoyable and creative.

NEW FIELDS OF EXPLORATION:

Teaching Online- One of the new fields of exploration is teaching online through Google meet, and WhatsApp audios which has made a new connection between teachers and students and has enhanced the way to search more and excess internet in best possible way.

1. **Let the creativity flow-**This lockdown period has given a chance to explore something out of the box and create an art which is hidden inside an individual. Spending some time creating craftwork brings blossom and gives pleasure.
2. **My You Tube-Channel:-**This exploration of creating own YouTube account was something never thought of before Lock down but the present time made it necessary to get connected with children through videos and making teaching learning more effective.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Post Covid Challenges:-

1. Distance teaching and learning.
2. Maintaining sanitization all around.
3. Completing syllabus with due course of time.
4. Getting students back into form of studying.
5. Socializing with social distancing.

Possible Solutions:-

1. Proper plan should be organized for seating arrangement of students in classroom.
2. Students should be again and again made aware of maintaining distance and sanitize themselves so to get into the habit of seeking cleanliness.
3. A little reduction in the syllabus can be an alternative where only core topics can be taken into consideration and rest can be a part of project or activity.
4. After a long time period of 3-4 months children might loose that level of concentration so a new way of making them attract towards teaching can be possible solution, may be through activity or learning by doing.
5. A proper awareness program needs to be a part of curriculum to make children realize that only distance needs to be maintained but social relationship holds the same position and distancing cannot effect the individual learning behavior.

Academic Challenges;

This is a crucial time for the education sector—board examinations, nursery school admissions, entrance tests of various universities and competitive examinations, among others, are all held during this period. As the days pass by with no immediate solution to stop the outbreak of Covid-19, school and university closures will not only have a short-term impact on the continuity of learning for more than 285 million young learners in India but also engender far-reaching economic and societal consequences.

The structure of schooling and learning, including teaching and assessment methodologies, was the first to be affected by these closures. Only a handful of private schools could adopt online teaching methods. Their low-income private and government school counterparts, on the other hand, have completely shut down for not having access to e-learning solutions. The students, in addition to the missed opportunities for learning, no longer have access to healthy meals during this time and are subject to economic and social stress.

OTHER CHALLENGES:

1. Early signs of Pending Pandemic:-The Challenge is looking for early signs of pending pandemics that could be traced without directly engaging people. This is an Ideation Challenge with a guaranteed award for at least one submitted solution.
2. New Technologies to prevent Transmission of CORONAVIRUS:-
Many Institutes are looking for new mask designs and technologies as well as new ideas for personal protective equipment (PPE) to prevent the transmission of respiratory viruses such as corona virus.
3. Diminishing the Transmission of COVID-19:-
According to the Centers for Disease Control and Prevention (CDC), COVID-19 is mainly spread from person-to-person by being in close proximity and inhaling respiratory droplets produced by infected individuals. Coming into contact with contaminated surfaces is another method of transmission. To decrease the exponential spread of the disease, large numbers of people are now practicing behaviors such as social distancing and regular hand washing.

MESSAGE TO THE SOCIETY:

Regardless of whether the world is in a pandemic situation or not, viruses pose a risk of disease to many individuals and therefore, individuals should take prudent steps to reduce their risk of infection. Such steps include social distancing and regular hand washing, the use of vaccine when available and especially if they are in a group recognized to be at higher risk for severe illness. Most individuals who become ill can be treated safely at home, but caretakers and family members should be aware that if an individual develops symptoms suggesting more severe disease, such as prolonged high fever, trouble breathing, or confusion, then professional medical care should be sought.

I, as a teacher and mentor would suggest my students as well as parents to be positive and increase their immunity to fight this situation not only physically but mentally as well as emotionally.

Google classroom and Google Meet is good platform to impart online classes. Students queries are addressed during the meeting and also reached to a constructive solutions. Students feedback was taken and adequate methods were implemented to satisfy each learner.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU:

Whole year's syllabus needs to be completed in less time which is the most challenging job in the hands of a teacher. Now, the question is how? We can go with some online classes after the school hours for few of the topics from each chapter so that course can be completed in less time. Learners as well as facilitator needs to be more proactive to make the plan successful.

YOUR MESSAGE TO THE SOCIETY:

Modernity a term, we at our peaks, introduce and adaption to that is also an up gradation as viewed by our society At present the whole Human race is in danger and their all modernity is in stake by ever deadly Virus COVID-19. Just in between of these two falls the stereotypical and orthodox phenomenon of thinking ... Because culture and modernity cannot go hand in hand at least with lowly literate people ! They don't listen to the instruction of being maintain social distancing and in this way they create deadly situations for others also. Being literate is not the literal sense owing to the literature in an entire education system ! To stick to the point ... Be aware and conscious for your perceptions and it's effects on others catering to their reactions ! GOD BLESS US ALL !

Happiness is nothing more than good health and a bad memory. Albert Schweitzer.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

I am not a very techno savvy person this exercise of online teaching has given me the exposure to use different computer application effectively like Google classroom, Zoom and making videos Etc. When we teach online it is more peaceful and maximum use of time because in school it takes at least 3-5 minutes to reach in class and start teaching.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN :

The teacher in me before lockdown was more focused on lecture based teaching or it was just an interaction between me and students. I would say it was chalk and talk method, storytelling and role play

methods. I use to feel that all the chapters in my mind any time ,but during teaching in the lockdown period brought many changes in me.

NEW FIELDS OF EXPLORATION:

In this new experience of teaching I did learn how technology can make our work so easy . I did learn how to use different application and making my own YouTube videos and Power point Presentations and make notes which was easy than the text book.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS ACCORDING TO YOU :

The first challenge would be making the school, the entire campus clean and make the students aware about the challenges. All the assembly to be taken in football ground in order to keep the required social distance. In the class room also we have to maintain social distance for that we have to run the school in two shifts.

MESSAGE TO THE SOCIETY :

My message for the society will be not to panic , use all the measures suggested by government and World Health Organization. Make people aware about Covid19 virus because we have to make our habit to live with it balancing between personal and social hygiene. I hope as the researches are going in India and other countries about the cure and vaccination we will surely and soon get rid of the pandemic.

INSIGHT-LEARNING OUTCOMES OF ONLINE WORKSHOPS:

1)Attended CBSE Workshop on Happy Classroom

Learning Outcome- The workshop emphasised on exhibiting self control by a teacher and also laid stress on the importance of being a role model for the students and also praising and appreciating students for even their smallest achievement can work as a catalyst in boosting the moral of a child.The teacher must try to instils in the students the moral values such aa gratitude, empathy, positive attitude etc.

2) The Python Workshop -

Learning Outcome- We learnt how to solve real world problems or projects by building Python based solutions and how to create our own Python programs. We learnt about the Programme flow win Python, The Binary number system exp[lained, Input and Output in Python and the Modules and functions in Python.

3) The ICT Training (Information and communications technology)-

Learning Outcome - This training provided an overview of ICT accessibility and organization challenges, and gave us a brief outline on how an ICT Accessibility Operation can help organisations address their challenges.

4) Google Classroom Management

Learning Objective - This training provided an overview where it allows the Admin to manage all the Google Classroom courses in the domain and the teachers to manage their own classes.

5) Scope of E-Learning

Learning Objective - Today with various technological developments, electronic way of learning has continued to develop especially during this time of pandemic. We should make maximum use of the e-learning resources available online.

THE TEACHER IN YOU – BEFORE AND DURING LOCKDOWN:

As a person I have always been very helpful and positive. During this Lockdown I have got this wonderful opportunity to learn and grow as an individual. I have also helped my teachers in managing their Google Classrooms and have also trained them on the Tools for Online Training.

I have also got the opportunity to have my own YouTube channel for Class XII Business Studies.

I have become more calm as a person and have also given quality time to my family. My Time- Management & Intellectual skills have also improved.

NEW FIELDS OF EXPLORATION:

I have gained more knowledge in Advance Computer Technology where one can customize, manage and monitor the tech infrastructure.

I have also been a part of the Technical support team for E-Learning which in turn has strengthened by Bond between my TEAM members and has improved my Communication Skills too.

POST COVID CHALLENGES AND POSSIBLE SOLUTIONS:

Covid-19 will remain for a long time now, we need to take all the precautions and follow the norms set by the WHO before we start the school.

Solutions- Subject matter whatever we cover in the class should be delivered online in a very systematic manner.

Online learning is not about 1 pedagogical model but an aggregation of various models. So we need to design our modules in such a way that the content delivered measures an individual's progress from time to time.

We need to have a blended learning where there will be a combination of classroom and online modes.

We need to re-design our curriculum in such a way where we need to apply the "Science of Digital Learning."

YOUR MESSAGE TO THE SOCIETY:

Take all the precautions which is the need of the hour, Be Calm and Stay Safe.....

REFLECTIONS

We all are amid an extraordinary situation emerging out of COVID 19 pandemic and the consequent lockdown. With this unprecedented lockdown everything has come to an abrupt halt and the academic world is not an exception. Because of the forced closure of educational institutions, the entire education system has been badly disturbed. However, DPS Gandhidham is optimistic and tries to see an opportunity in a calamity. Taking the advantage of the situation and using technology, a blessing for 21st century, the school has taken an initiative “**HOME IS THE NEW SCHOOL**” where it has ensured the academic welfare of its most precious partners – students with online classes and several different assessments and activities.

ONLINE CLASSES:

As a progressive institution that incorporates technology in every aspect of life, DPS Gandhidham has found this is the best time to adopt digital education to the most. The school has provided a **HOME E-SCHOOL SCHEDULE**, employed **GOOGLE CLASSROOM & WHATSAPP**, and started imparting academic instruction including presentations aired through YouTube etc. The school has also been in the front line to use **GOOGLE MEET** for live interactions with the teachers.

DELHI PUBLIC SCHOOL – ONLINE TALENT HUNT OLYMPIADS (DTHO) – 2020:

The school scheduled **ONLINE DTHO-2020**, one of its most prestigious products, from 18/5/2020 to 1/6/2020 with the following benefits to the students.

- Develop enthusiasm for problem solving
- Deepen the understanding of concepts and strengthen ability to use the concepts
- Build stronger foundation to current academic assessments and prospective competitive exams.

*It is to be noted that the outstanding performances are being given the **'CERTIFICATE OF ACHIEVEMENT'**.*

A QUESTION A DAY (ONLINE AQAD):

In order to engage the students meaningfully, the School started an innovative initiative named "A QUESTION A DAY (AQAD)" on 20/4/2020. From then on, the students are being provided with a question a day in all the scholastic subjects to make them ready for the External Olympiads. The answers to these application-based questions and a new question are being given the next day.

ONLINE 'MINI MBA':

Believing in "Information is power", DPS Gandhidham has provided a useful source to its students to grow. It was an online 'Mini MBA' programme for Classes "VIII to X" by IIM & Ivy League Alumni.

THE SPIC MACAY EXPERIENCE - A WEEK LONG ONLINE PROGRAMME: 1-7 JUNE 2020:

DPS Gandhidham wishes to provide the best resources for its students' development. With that said, to its students, the School has provided a source of special creative experience through **SPIC MACAY**. During the current COVID-19 crisis, SPIC MACAY is making an effort to connect teenagers and youth online with the best of classical music, dance and other art forms from the world-famous art Gurus like Pandit Hariprasad Chaurasia, Ustad Shahid Parvez, Smt. Teejan Bai, Ustad Amjad Ali Khan, Pandit Shiv Kumar Sharma, Smt. Shabana Azmi, Ustad Bahauddin Dagar, Ustad Wasifuddin Dagar, Smt. Rohini Hattangadi, Begum Parveen Sultana, Smt. Kapila Venu Sh. Javed Akhtar.

The selected students (on first come first serve basis) will get an opportunity to participate in virtual workshops and have unique cultural experience under the privileged mentorship of the reputed 'Gurus' in various activities like - Classical Music, Dance, Intensive, Workshop, Dialogue, Nad Yoga, Hatha Yoga, Theatre and Folk Arts establishing a deep chord with Indian cultural heritage and arts.

This special series of 'SPIC MACAY' Experience' is proposed from 01 - 07 June, which will be live on YouTube Channel <https://www.youtube.com/user/spicmacay>.

ONLINE WORLD BOOK AND COPYRIGHT DAY CELEBRATION- 2020:

DPS Gandhidham felt this was the best time that the power of books should be leveraged to fight isolation, reinforce ties between us, and expand our horizons, while stimulating our minds and creativity. On the occasion of **World Book Day 2020**, a global celebration of books, authors and reading, the school invited the bookworms to share a video revealing their reflections on the most influential/loved book they had ever read.

ONLINE ART COMPETITION-2020:

DPS Gandhidham thought of changing the boring moments into memorable ones. ONLINE ART COMPETITION-2020 was the brainchild. The school organised the competition for Students from Pre Primary to Class XII, Teachers, Parents, and Grandparents with the current COVID-19 related theme "**Lockdown and Me**". The school had a robust conviction that we would be able to turn the unexpected moments into unforgettable ones through the creative expression of our emotions, feelings, notions, motions, views, and ideas on the COVID-19 Lockdown, social distancing, quarantine and the fight against the virus.

ONLINE EARTH DAY COMPETITION-2020:

They say where there is a will there is a way. Despite social distancing in full force during this 50th Earth Day, DPS Gandhidham devised a way to mark this special birth anniversary of our mother earth. The school held an online **Earth Day Competition-2020** with theme **Climate Action** to show our love to the mother Earth virtually.

(Theme: Sustainable Development Goals-2030)

We, DPS Gandhidham, profoundly believe in nurturing students with a global consciousness and awareness. It is because our growing generations are the promise of today and hope for tomorrow. And it is our passion and commitment that makes this planet a better place for living. **Sustainable Development Goals – 2030** are adopted by all United Nations Member Countries for a better present as well as future. To inculcate the values of **SDGs** in education system, the solution we found is **Fourth Edition of MODEL UNITED NATIONS (MUN)**. In the history of our country, the host, DPS Gandhidham has introduced organising **MUN** for students, teachers, parents and members of different professions.

ONLINE INSTRUMENTAL MUSIC COMPETITION-2020:

DPS Gandhidham explored the innate abilities of the students, parents and teachers through a solo vocal competition. This was held as an **Intra Class E-Competition** with the name **Solo Instrumental Music Competition-2020** for the children of **Classes III till XII** and as a **general e-competition** with the name **Rising Star Instrumental Music Competition-2020** for the **Parents and Teachers**.

ONLINE VOCAL MUSIC COMPETITION-2020:

This year the CBSE board and the different Ministries of Govt. have initiated to integrate the scope of different student enrichment activities such as “**Heritage of India**”. With that said, DPS Gandhidham was back yet once again to explore the innate abilities of the students, parents and teachers through a solo vocal competition. This was held as an **Intra Class E-Competition** with the name **Intra Class Rising Star Vocal Music Competition-2020** for the children of **Classes III till XII** and as a **general e-competition** with the name **Rising Star Vocal Music Competition-2020** for the **Parents and Teachers**.

ONLINE INTRA CLASS RISING STAR DANCE COMPETITION-2020:

To continue the process of rediscovering the hidden skills and passion for the unknown, DPS Gandhidham conducted an **Intra Class Solo Dance Competition-2020** for the children of **Classes Pre-Primary till Class XII**.

ADVISORY REGARDING CHILDREN'S ENRICHMENT & SAFETY DURING SUMMER VACATION:

Summer vacation is all about fun and frolic. However, there is a lot more that can be done to make the child's vacation more interesting, meaningful and full of fun. Kindly take a note of the following few tips for the child's enrichment and safety during this break.

TO THE PARENT:

- For the development of physical and mental stamina, you may make your child do exercises and practice yoga and meditation.
- Encourage the child to develop a hobby like reading, drawing, painting, music, dance etc. Let him/her join any online course.
- To do well in the scholastic assessments, ask the child to make the best use of this break time to revise the course done during online classes till date.
- For the improvement of handwriting: Daily practice both cursive English and Hindi in a page in a book or copy.
- For the improvement of reading: Daily read aloud at least one page for both English and Hindi textbooks.
- For the improvement of spellings: Daily practise about 10 spellings of hard words in all the course books.
- For the improvement of vocabulary: Prepare your own sentences using the list of words given in English textbooks.

TO THE CHILD:

- Learn to be safe.
- Do not go out alone without an elder to accompany you.
- Never talk to strangers.
- Do not accept gifts/eatables from strangers
- Play in fenced areas and not on streets.
- Scream for help in case you feel you are in danger.
- Memorise your parents and relatives phone numbers.
- If you find yourself lost in a market ask someone to give a call to your parents.

- Learn to be responsible and develop personal skills
- Keep things in their proper place so as to keep your room clean
- Help your mother in laundry and other daily chores.
- Water the plants. Plant a tree and nurture it.
- Dust and clean your room/ house.
- Look after your younger brother and sister
- Set the dining table for your family.
- Feed your pet if you have one.
- Develop Social Skills
- Give respect to the elders and love to the young ones.
- Four magic words that are basics of good manners - Please, Thank you, Excuse me and Sorry. Make these four words a habit and see the difference.
- Wish and welcome the guests.
- Converse with your relatives/ visitors.
- Spend time with your grandparents.
- Develop Personal Hygiene
- Take a shower everyday and brush teeth twice daily.
- Wash your hands before and after meals.
- Trim your nails once in a week.
- Keep your surroundings clean.
- Suggested TV Channels: Discovery kids, National Geographic, Animal Planet & Disney Junior

Finally, DPS Gandhidham has a firm faith that observing the above religiously will ensure the children's enrichment and safety.

Let us **STAY VIGILANT, STAY SAFE, and STAY POSITIVE to ourselves and negative to COVID-19!!!**
